

NKETOANA LOCAL MUNICIPALITY

4th Generation IDP 2017 – 2022

Table of Contents

Section 1: Executive Summary	9
1.1 Mayoral Foreword	10
Good governance is accountable	19
Good governance is transparent	19
Good governance follows the rule of law	19
Good governance is responsive	19
Good governance is equitable and inclusive	19
Good governance is effective and efficient	20
Good governance is participatory	20
1.2 Vision of Nketoana Local Municipality	23
1.2.1 Who Are We?	25
1.3 Demographic Profile of the Municipality	27
1.4 Powers and Functions of the Municipality	36
1.5 Process followed to develop the IDP	39
1.5.1 Organizational Arrangements	39
1.5.2 Measure Performance in terms of the IDP	40
1.6 Spatial Economy and Development Rationale	41
1.6.1 Opportunities Offered	43
1.6.2 Improvement Strategies	45
1.7 Issues Emanating from Community Engagements and IDP Representative Forum Meetings	47
Section 2: Status Quo Analysis	47
2.1 Analysis of Access to Basic Services: 2001-2011	49
2.2 Local Economic Development	50
2.3 Basic Services and Infrastructure	56
2.3.1 Housing	56
2.3.1 Water	58
2.3.2 Sanitation	61
2.3.3 Energy (Electricity)	64
2.3.4 Refuse Removal and Waste Disposal	70
2.3.5 Municipal Roads & Storm Water	74
2.3.6 Cemeteries	77
2.4 Social and Community Profile	78

2.5 Financial Viability and Management.....	81
2.6 Institutional Transformation and Organizational Development.....	83
2.7 Good Governance & Public Participation	84
2.8 SWOT Analysis.....	86
Section 3	88
3.1 Vision and Mission of the Nketoana Local Municipality.....	89
3.2 IDP Priorities	90
3.3 Development Objectives, Strategies, Programmes and Projects: <i>Basic Service Delivery and Infrastructure Investment</i>	91
3.3.1 Priority 1: Water.....	92
3.3.2 Priority 2: Sanitation.....	96
3.3.3 Priority 3: Municipal Roads and Transport	98
3.3.4 Priority 4: Urban Planning (Including Housing).....	101
3.3.5 Priority 7: Refuse Removal.....	104
3.3.6 Priority 8: Electricity Reticulation	106
3.3.7 Priority 9: Cemeteries and Parks.....	108
3.3.8 Priority 10: Sport and Recreational Facilities.....	111
3.3.9 Priority 11: Traffic and Parking.....	113
3.3.10 Priority 12: Firefighting	114
3.4 Local Economic Development.....	116
3.4.1 Priority 5: Local and Rural Economic Development	116
3.5 Financial Viability & Management.....	120
3.6 Institutional Transformation and Organizational Development.....	123
3.7 Good Governance and Public Participation	126
3.8 Issues impacting across priority areas.....	129
Section 4: High level Sector Plans (SDF)	132
4.1 Spatial Development Framework.....	133
4.1.1 Implications for the drafting of the IDP.....	134
4.2 Input Sector Plans	134
4.2.1 Vision and Framework towards Sustainable Development	135
4.2.2 Environmental Management Planning	136
4.2.3 Integrated Economic Development Plan	136
4.3 Input Sector Plans and Strategies	137
4.4 Strategy Support Plans.....	137
4.5 Implementation Support Plans	138

4.5.1 Institutional Plan	138
4.6 Alignment of the IDP with National, Provincial and District Priorities	143
4.6.1 Projects from sector departments to be implemented in the jurisdiction of the Nketoana Local Municipality	164
4.7 Financial Plan and Budget Alignment	168
Section 5: Annual Operational Plan	181
5.1 Basic Service Delivery and Infrastructure Investment	183
5.1.1 Community Services.....	183
5.1.2 Technical Services.....	199
5.2 Local Economic Development.....	212
5.2.1 Community Services.....	212
5.3 Municipal Institutional Management And Organizational Development.....	214
5.3.1 Corporate Services	214
5.4 Municipal Financial Viability & Management.....	217
5.4.1 Financial Services	217
5.5 Good Governance and Public Participation	223
5.5.1 Office of the Municipal Manager	223
5.5.2 Corporate Services	226
5.5.3 Financial Services	229

Section 1
Executive Summary

1.1 Mayoral Foreword

The Nketoana Local Municipality is proud to bring this, the first IDP of the 4th Generation by the Council, to our communities.

According to Census 2011 results, there are 60,325 persons staying in our municipal area. Of these, 94,43% are African, 0,31% Coloureds, 0,24% Indian or Asian, 7,79% White and 0,23% Other.

Figure 1: Population according to wards

Nketoana considers two critical considerations with the compilation of its IDP, namely:

- The performance demands and expectations of both its regulators (central and provincial government and sector departments), as well as those of communities; and
- The institution (municipality) capacity to deliver, as determined by the availability of resources and the productive utilization of these resources.

The municipality is aware of the need to align its strategic plan (IDP) and budget with core planning and priority documents of the national and provincial government[s], with specific reference to:

- The National Development Plan, and

- The Free State Provincial Growth and Development Strategy.

However, the municipality's capacity to launch programmes and projects in support of these priorities are limited by its budget and staff capacity. The result of this reality is that the municipality focus on those drivers in the NDP and FSGDS that are also core Constitutional mandates of local government.

In light of the above-mentioned, where will we contribute to the aims of the National Development Plan:

Table 1: Primary National Challenges in the NDP

Challenge in the NDP	Municipal Response
1. Too few people work	Interventions through the EDWP and LED strategies. The municipality's capacity does not allow interventions beyond these initiatives.
2. The quality of school education for black people is poor	Indirect support to schools and educational initiatives, mostly in the form of infrastructure provision and maintenance (water, electricity, refuse removal and sanitation)
3. Infrastructure is poorly located, inadequate and under-maintained	This is our primary area of responsibility (contribution to the NDP). Nketoana continuously maintain, upgrade and expand infrastructure, with specific reference to – <ul style="list-style-type: none"> • Water infrastructure • Sanitation infrastructure • Refuse removal • Electricity infrastructure
4. Spatial divides hobble inclusive development	The municipality addresses the legacy of apartheid special patterns in a holistic manner through the implementation of its Spatial Development Framework
5. The economy is unsustainably resource intensive	This is not a competency of the Nketoana Local Municipality. What we are doing, is to promote sustainable industries through our LED Strategy,

Challenge in the NDP	Municipal Response
	with specific reference to agriculture and the establishment of cooperatives.
6. The public health system cannot meet demand or sustain quality	This is not a competency of the Nketoana Local Municipality. We do, however, support local health facilities through infrastructure maintenance at clinics and the Reitz hospital and clinics in the area.
7. Public services are uneven and often of poor quality	Nketoana Municipality has made a firm commitment towards service excellence, both through institutional development, as well as implementation of the Batho Pele and outcome-based management philosophies and principles
8. Corruption levels are high	The municipality is combatting fraud and corruption through the implementation of a comprehensive Fraud and Anti-corruption policy.
9. South Africa remains a divided society	Our municipality is addressing the divisions in its communities through its social cohesion initiatives and strategies.

Table 2: The Free State Growth and Development Strategy

Driver from the FSGDS	Municipal Response
1. Diversity and expansion of agricultural development and food security	The municipality could only support sector departments and other initiatives aimed at diversifying and expanding agricultural development and food security. We do not have the resources to get directly involved in such projects or programmes.
1. Economic development: Minimize the impact of the declining mining sector and ensure that existing mining potential is harnessed; expand and diversify manufacturing	<ul style="list-style-type: none"> The Nketoana municipal area is not a mining area, and the municipality's capacity only allows it to support private or government initiatives aimed at exploring the area for mining opportunities

Driver from the FSGDS	Municipal Response
<p>opportunities; capitalize on transport and distribution opportunities; harness and increase tourism potential and opportunities</p>	<ul style="list-style-type: none"> • Nketoana's primary economic activity is agriculture and (to a lesser extend) the tourism industry and trade. Our LED strategy does provide for potential industrial expansion, but the municipality could only support such initiatives within the scope of its limited LED budget and by providing logistical support to private investors. • Nketoana's LED Strategy, as well as its Infrastructure Maintenance Programmes provide for the proper maintenance of roads and streets in its area of jurisdiction. This element of our business portfolio consumes a large percentage of our capital budget. • Nketoana has identified tourism as one of its main LED focus areas. We are hosting the Bielie-Mielie Festival annually, and has also invested in an initiative that promotes township marketing.
<p>2. Ensure an appropriate skills base for growth and development</p>	<p>We are contributing towards continuous skills development through a number of strategies that fit into our affordability limitations. These include the following:</p> <ul style="list-style-type: none"> • Training of our employees through skills levies and the Skills Development Plan • Assistance to the community through bursary schemes • Indirect capacity building and learning through a variety of awareness campaigns.
<p>3. Curb crime and streamline criminal justice performance</p>	<p>Our municipality focus our attention on municipal policing. However, due to budget and capacity constraints, these initiatives are mostly restricted to traffic control and disaster assistance.</p>

Driver from the FSGDS	Municipal Response
4. Expand and maintain basic and road infrastructure	<p>This is our primary area of responsibility (contribution to the NDP). Nketoana continuously maintain, upgrade and expand infrastructure, with specific reference to –</p> <ul style="list-style-type: none"> • Water infrastructure • Sanitation infrastructure • Refuse removal • Electricity infrastructure <p>Nketoana's Infrastructure Maintenance Programmes provide for the proper maintenance of roads and streets in its area of jurisdiction. This element of our business portfolio consumes a large percentage of our capital budget.</p>
5. Facilitate sustainable human settlements	<p>The municipality's resource constraints (as well as its limited status as a housing provider) force it to focus on infrastructure support, erven identification and development, the maintenance of information databases and the identification of beneficiaries in Government's housing programme.</p>
6. Provide improved quality of health care	<p>This is not a competency of the Nketoana Local Municipality. We do, however, support local health facilities through infrastructure maintenance at clinics and the Reitz hospital and clinics in the area.</p>
7. Ensure social development and social security	<p>The Community Service's Department of the municipality assisted with social development and social security through programmes such as cemetery maintenance and upgrading, local economic development and the building of social cohesion in the local communities.</p>
8. Environmental concerns	<p>The municipality's core focus areas, as enabled by its budget and planning priorities, are as follow:</p>

Driver from the FSGDS	Municipal Response
	<ul style="list-style-type: none"> • To ensure good quality drinking water and waste water, and • Ensuring the integration of minimum requirements for environmental protection in all its strategies and projects.
9. Mainstream rural development into growth and development planning	The municipality supports rural communities in its area of jurisdiction by providing transport to events arranged by the municipality, and by providing water to communities on selective farms.
10. Maximize arts, culture, sports and recreation opportunities and prospects for all communities	<ul style="list-style-type: none"> • The municipality has budgeted for sport and recreation facilities, but budget constraints remain a key factor in delivery. • The municipality maintain various cemeteries, community halls, parks, libraries and recreational facilities in its area of jurisdiction. • The municipality supports the annual Bielie-Mielie Festival, as well as the advancement of African musicians through the festival.
11. Foster good Governance and Create a Conducive Climate for Growth and Development	<p>The Nketoana Municipality promotes a culture of good governance by –</p> <ul style="list-style-type: none"> • Regular Council meetings, conducted in terms of the requirements of the Municipal Structures Act, 1998 • The training of Councilors • Integrated IDP, SDBIP and PMS systems and processes, which have resulted in a clean PMS audit outcomes the last consecutive two financial years. • Resourcing of performance plans by aligning it with the staff establishment and budget. • Effective Council oversight and accountability by officials and politicians alike.

Table 3: Primary National Challenges in the Medium Term Strategic Framework

Challenge in the NDP	Municipal Response
Outcome 1: Quality of Education	Indirect support to schools and educational initiatives, mostly in the form of infrastructure provision and maintenance (water, electricity, refuse removal and sanitation)
Outcome 2: A long and Healthy Life for All South Africans	Indirect support to health facilities, mostly in the form of infrastructure provision and maintenance (water, electricity, refuse removal and sanitation) Promote food safety, HIV and related STDs and TB awareness through awareness programmes
Outcome 3: All People in South Africa are and Feel Safe	Our municipality focus our attention on municipal policing. However, due to budget and capacity constraints, these initiatives are mostly restricted to traffic control and disaster assistance.
Outcome 4: Decent Employment through Inclusive Growth	Interventions through the EDWP and LED strategies. The municipality's capacity does not allow interventions beyond these initiatives.
Outcome 5: Skilled and Capable Workforce to Support an Inclusive Growth Path Outcome 6: An Efficient, Competitive and Responsive Economic Infrastructure Network	<ul style="list-style-type: none"> • The Nketoana municipal area is not a mining area, and the municipality's capacity only allows it to support private or government initiatives aimed at exploring the area for mining opportunities • Nketoana's primary economic activity is agriculture and (to a lesser extend) the tourisms industry and trade. Our LED strategy does provide for potential industrial expansion, but the municipality could only support such initiatives within the scope of its limited LED budget and by providing logistical support to private investors. • Nketoana's LED Strategy, as well as its Infrastructure Maintenance Programmes provide for the proper maintenance of roads and streets in its area of jurisdiction. This element of our business portfolio consumes a large percentage of our capital budget. • Nketoana has identified tourism as one of its main LED focus areas. We are hosting the Bielie-Mielie

Challenge in the NDP	Municipal Response
	Festival annually, and has also invested in an initiative that promotes township marketing.
Outcome 7: Comprehensive Rural Development	The municipality supports rural communities in its area of jurisdiction by providing transport to events arranged by the municipality, and by providing water to communities on selective farms.
Outcome 8: Create Sustainable Human Settlements and Improved Quality of Households	The municipality's resource constraints (as well as its limited status as a housing provider) force it to focus on infrastructure support, erven identification and development, the maintenance of information databases and the identification of beneficiaries in Government's housing programme.
Outcome 9: Responsive, Accountable, Effective and Efficient Developmental Government System Outcome 12: An Efficient, Effective and Developmental Oriented Public Service	The Nketoana Municipality promotes a culture of good governance by – <ul style="list-style-type: none"> • Regular Council meetings, conducted in terms of the requirements of the Municipal Structures Act, 1998 • The training of Councilors • Integrated IDP, SDBIP and PMS systems and processes, which have resulted in a clean PMS audit outcomes the last consecutive two financial years. • Resourcing of performance plans by aligning it with the staff establishment and budget. • Effective Council oversight and accountability by officials and politicians alike.
Outcome 10: Protect and Enhance Our Environmental Assets and Natural Resources	The municipality's core focus areas, as enabled by its budget and planning priorities, are as follow: <ul style="list-style-type: none"> • To ensure good quality drinking water and waste water, and • Ensuring the integration of minimum requirements for environmental protection in all its strategies and projects.
Outcome 14: Transforming Society and Uniting the Country	The municipality addresses the legacy of apartheid special patterns in a holistic manner through the implementation of its Spatial Development Framework

Challenge in the NDP	Municipal Response
	<p>The Community Service's Department of the municipality assisted with social development and social security through programmes such as cemetery maintenance and upgrading, local economic development and the building of social cohesion in the local communities.</p> <p>The municipality has prioritized budgeting systems and practices to ensure effective local fiscal planning and regulatory compliant transaction record-keeping. We are constantly attending to issues raised in audit inquiries, such as revenue collection, the records on our procurements, supply chain management, human resource and financial management systems, and unauthorized, irregular and wasteful expenditure.</p> <p>We have adopted a Skills Development Plan which informs our training and capacity building initiatives, an Employment Equity Plan that facilitates compliance with Government's national goals for employment in government institutions.</p>

A more detailed and complete alignment is captured in Part IV of this IDP.

Our municipality shares Government's commitment to improving the lives of our people, and we therefore decided to align this review with the Back to basics Programme, aimed at improving access to basic services, as well as organizational excellence. In this regard, we are supporting the core intentions of the B2B Programme as follow:

Table 4: Alignment between IDP and Back-to-Basics Programme

1. Put people and their concerns first and ensure constant contact with communities through effective <i>public participation</i> platforms.	Nketoana Municipality focuses on involving local communities in its decision-making (policy making) and accountability systems and processes. The IDP and budget are communicated through annual roadshows, and the annual report, as well as the oversight report, are discussed with the community through community engagement sessions.
2. Create conditions for decent living by consistently delivering municipal <i>services to the right quality and standard</i> . This includes planning for and delivery of	Nketoana municipality aims to render basic services in the quality and quantities required by its communities at all times. However, severe budget limitations make it difficult to meet all demands all the time. We therefore adopted an

<p>infrastructure and amenities, maintenance and upkeep, including the budgeting to do this. Ensure no failures in services and where there are, restore with urgency.</p>	<p>integrated approach to planning and budgeting, whereby budgets are informed by prioritized service demands. We also support national and provincial government departments in various initiatives focused on the Nketoana municipal area, with specific reference to infrastructure maintenance and expansion in respect of housing, and at educational and health facilities.</p>
<p>3. Be well <i>governed</i> and demonstrate good governance and administration - cut wastage, spend public funds prudently, hire competent staff, ensure transparency and accountability.</p>	<p>Nketoana municipality's commitment to organizational excellence is reflected in consecutive positive audit outcomes for a number of years now. We therefore prescribe to the following principles, which will guide our governance and administrative IDP strategies and objectives:</p> <p>Good governance is accountable</p> <p>Accountability is a fundamental requirement of good governance. The municipality has an obligation to report, explain and be answerable for the consequences of decisions it has made on behalf of the community it represents.</p> <p>Good governance is transparent</p> <p>Communities should be able to follow and understand the decision-making and Council processes. This means that they will be able to clearly see how and why a decision was made – what information, advice and consultation council considered, and which legislative requirements (when relevant) council followed.</p> <p>Good governance follows the rule of law</p> <p>This means that decisions are consistent with relevant legislation or common law and are within the powers of council.</p> <p>Good governance is responsive</p> <p>Our municipality should always try to serve the needs of the entire community while balancing competing interests in a timely, appropriate and responsive manner.</p> <p>Good governance is equitable and inclusive</p> <p>A community's wellbeing results from all of its members feeling their interests have been considered by council in</p>

	<p>the decision-making process. This means that all groups, particularly the most vulnerable, should have opportunities to participate in the process.</p> <p>Good governance is effective and efficient</p> <p>Our municipality should implement decisions and follow processes that make the best use of the available people, resources and time to ensure the best possible results for their community.</p> <p>Good governance is participatory</p> <p>Anyone affected by or interested in a decision should have the opportunity to participate in the process for making that decision. This can happen in several ways – community members may be provided with information, asked for their opinion, given the opportunity to make recommendations or, in some cases, be part of the actual decision-making process.</p>
4. Ensure sound <i>financial management</i> and accounting, and prudently manage resources so as to sustainably deliver services and bring development to communities.	The municipality has prioritized budgeting systems and practices to ensure effective local fiscal planning and regulatory compliant transaction record-keeping. We are constantly attending to issues raised in audit inquiries, such as revenue collection, the records on our procurements, supply chain management, human resource and financial management systems, and unauthorized, irregular and wasteful expenditure.
5. Build and maintain sound <i>institutional and administrative capabilities</i> administered and managed by dedicated and skilled personnel at all levels	We have adopted a Skills Development Plan which informs our training and capacity building initiatives, an Employment Equity Plan that facilitates compliance with Government's national goals for employment in government institutions.

Our municipality has also aligned this IDP with the priorities of National and Provincial Government, as expressed in the state of nation and state of the province's speeches.

The municipality has also aligned its IDP with the commitments of the Hon. President Mr. Jacob G. Zuma in the 2016 State of the Nation Speech on 11 February 2016. In this regard, mention could be made of the following:

- *A resilient and fast growing economy is at the heart of the country's radical economic transformation agenda and the National Development Plan*
- *The need to empower small, medium and micro enterprises to accelerate their growth*

The objectives and strategies from this IDP supporting the commitment in the SONA:

1. To create employment opportunities in the Nketoana municipal area
2. To create an environment conducive for investment and increased economic activity in the Nketoana municipal area
3. The Municipality's economic development strategy is currently informed by the Integrated Economic Development Framework. However, the LED Strategy is currently in the final phases of finalization.
4. The SDF proposes long-term, expensive initiatives, such as the development of a CBD in Mamafubedu and the expansion of the industrial area between the railway line and Elandskop.
5. However, in terms of affordability, the Municipality's economic development strategies for the 2012-2017 IDP cycle focuses on three key elements, namely:
 - Job creation
 - Identify and develop economic development landmarks
 - Develop Reitz as an economic development hub for manufacturing (industrial zones)
 - To create a business environment conducive for investment, with specific reference to ensuring that basic services are available to support such expansion
 - Promotion of targeted economic sectors, such as BBBEEs, SMMEs and local purchasing.

Strategy related to Cooperatives

Cooperatives must be community driven

The Nine-Point Plan:

Nketoana has considered its institutional capacity, and has identified the following elements of the Nine Point Plan to which it could contribute:

Table 5: Alignment of the IDP with the SoNA

Element of the Nine-Point Plan from SoNA	Nketoana Municipality's Response
<i>Unlocking the potential of SMMEs, cooperatives, township and rural enterprises</i>	<p>To create an environment conducive for investment and increased economic activity in the Nketoana municipal area</p> <ul style="list-style-type: none"> • Develop Reitz as an economic development hub for manufacturing (industrial zones) • To create a business environment conducive for investment, with specific reference to ensuring that basic services are available to support such expansion

Element of the Nine-Point Plan from SoNA	Nketoana Municipality's Response
	<ul style="list-style-type: none"> Promotion of targeted economic sectors, such as BBBEEs, SMMEs and local purchasing
<i>Water and sanitation</i>	<p>To ensure that 100% of households in formal and informal settlements in the Nketoana municipal area have access to basic level of water by 2015</p> <p>The Municipality's water-related strategies are informed by the Water Services Development Plan.</p> <p>The target of 100% access to basic level of water requires the following interventions:</p> <ul style="list-style-type: none"> Maintenance of existing levels of accessibility to clean, potable water in those areas where the service is currently available; Expanding access to new residential and business sites in formal areas, and Maintenance, operation and expansion of water-related infrastructure that enable the municipality to ensure access to the defined level of service. <p>In light of the above-mentioned, the Municipality's strategy focus on three elements, namely:</p> <ul style="list-style-type: none"> Continuous maintenance and operation of water infrastructure to ensure that current levels of accessibility to water could be maintained; Expand infrastructure to expansions in service points; and Ensure that processes and systems are in place to provide acceptable quality drinking water. <p>To ensure that 100% of households in formal settlements in the Nketoana municipal area have access to basic level of sanitation by 2017</p> <ul style="list-style-type: none"> The municipality needs to provide 100% of the Nketoana community with access to at least RDP level of sanitation. Given the capacity limitations of the municipality, this will not be possible for rural areas and farming communities, but for formal settlements it will. The municipality's strategy in this regard focuses on ensuring that all households in formal settlements have access to at least RDP level of sanitation. This strategy include maintaining, upgrading and extended the infrastructure required to maintain such levels of access. <p>An important element of the municipality's strategic approach towards sanitation is to improve its waste water management standards (green drop status).</p> <p>The conversion of VIP toilets to water borne systems is an important element of the municipality's strategic framework for sanitation services.</p>
<i>Transport infrastructure</i>	<p>To ensure that internal roads in the Nketoana municipal area are maintained and/or upgraded to facilitate economic and social activity required for the sustainable development of the municipality; considering the capacity limitations facing the Municipality</p>

Element of the Nine-Point Plan from SoNA	Nketoana Municipality's Response
	<p>The strategies of the municipality related to roads and storm water derived from the Roads and Storm water Masterplan (2011).</p> <p>There are four key elements at the core of this strategy, namely:¹</p> <ul style="list-style-type: none"> • Upgrading of existing gravel roads to paved or tarred roads (129,9 km) • Upgrading of existing dirt roads to paved or tarred roads (3,9 km) • Rehabilitation of existing tar roads (rebuilding, pothole repairs, crack sealing, seal treatment and road markings); and • Provision of storm water drains (141,9 km) <p>It is envisaged to do paving in each financial year and then gradually improve the roads.</p> <p>Storm water - The maintenance of storm water channels and catching points are prioritized. Damage can be prevented if the water can be allowed to flow free without damming and congestion.</p> <p>The municipality need to improve its capacity to achieve its objectives for the maintenance and upgrading of roads by sourcing adequate funding for the roads, and then specifically the development of roads).</p>

1.2 Vision of Nketoana Local Municipality

The vision of Nketoana Local Municipality is “A municipality that will care for its residents and provide a safe and crime-free environment conducive for sustainable development.”

The Municipality strives to live this by at all times attempting to:

- To foster a spirit of unity and communication in the pursuit of achieving the municipal objectives
- To provide a democratic, accountable and ethical government for the Nketoana community
- To render services in an effective, efficient and economic manner
- To promote sound and transparent financial management in accordance with legislative requirements
- To accelerate programmes that will help meet the socio-economic needs of the Nketoana residents

Section 152 of the Constitution, 1996, stipulates as the core objects of local government the following:

1. *The objects of local government are -*

¹ (Nektoana Local Municipality, Roads and Stormwater Masterplan, 2011)

- a. *to provide democratic and accountable government for local communities;*
 - b. *to ensure the provision of services to communities in a sustainable manner;*
 - c. *to promote social and economic development;*
 - d. *to promote a safe and healthy environment; and*
 - e. *to encourage the involvement of communities and community organizations in the matters of local government.*
2. *A municipality must strive, within its financial and administrative capacity, to achieve the objects set out in subsection (1).*

The Nketoana Local Municipality places these objects at the core of all its operations, programmes and projects, and has therefore, in compliance with the National Government's vision for local government, structured its activities according to the following five key performance areas:

Table 6: Key Performance Areas, and their relation to the objects of the Constitution, 1996

Objects of the Constitution, 1996	Municipal Key Performance Areas
<i>to provide democratic and accountable government for local communities</i>	Good Governance & Public Participation
<i>to encourage the involvement of communities and community organizations in the matters of local government</i>	
<i>to ensure the provision of services to communities in a sustainable manner</i>	Basic Service Delivery & Infrastructure Investment
<i>to promote a safe and healthy environment</i>	
<i>to promote social and economic development</i>	Local Economic Development (including job creation)

The other two of the municipality's five key performance areas are institutional and derived from sections 153 and 154 of the Constitution, 1996, which stipulate as follows:

153. Developmental duties of municipalities

A municipality must

- a. *structure and manage its administration, and budgeting and planning processes to give priority to the basic needs of the community, and to promote the social and economic development of the community; and*
- b. *participate in national and provincial development programmes.*

154. Municipalities in co-operative government

1. *The national government and provincial governments, by legislative and other measures, must support and strengthen the capacity of municipalities to manage their own affairs, to exercise their powers and to perform their functions.*
2. *Draft national or provincial legislation that affects the status, institutions, powers or functions of local government must be published for public comment before it is introduced in Parliament or a provincial legislature, in a manner that allows organized local government, municipalities and other interested persons an opportunity to make representations with regard to the draft legislation.*

Table 7: Institutional-focus Key Performance Areas

<i>structure and manage its administration ... and planning processes to give priority to the basic needs of the community, and to promote the social and economic development of the community</i>	Institutional Transformation and Organizational Development
<i>structure and manage its ... budgeting and planning processes to give priority to the basic needs of the community, and to promote the social and economic development of the community</i>	Financial Viability & Management

1.2.1 Who Are We?

Nketoana Local Municipality is named after the Leibenbergsvlei River, which is Nketoana in Sesotho.

The Municipality is situated within the Thabo Mafutsanyana District Municipality in the Eastern Free State. It comprises of Reitz, Petsana, Mamafubedu, Lindley, Ntha, Arlington and Leratswana.

The head office is situated at Reitz, with municipal staff in each unit to ensure that services are brought closer to the community. The Municipality has four administration departments i.e. Corporate Services, Community Services, Technical Services and Financial Services. The core function of the municipality is service delivery as set out in the constitution.

The municipality is 54km from Bethlehem, 240km from Johannesburg and 60 km from the N3 Road.

The main economic activities in the area are agriculture and retail businesses. Nketoana is a fertile agricultural region and approximately 19% of the economically active population is employed in the agricultural sector.

Attractions in the area include: flower and nut farms; bird farms; two lion farms; game farms and the Bass Feather Country Lodge (Previously known as Bietjie Water Holiday Resort). History buffs will be interested in the fact that Lindley was the birthplace of Dr Danie Craven and the Yeomanry Koppies area is a recognized Anglo-Boer War battlefield. The historical Dutch Reformed Church building in Ntha and the Krusipad Missionary Church are also likely to be of interest, as are the other national monuments in the area.

The Bieliemielie Festival and annual stud auctions are popular with locals. Tourists can visit the agri-tourism route in Arlington. (Source: <http://www.freestatebusiness.co.za/municipalities>)

The municipality has conducted a comprehensive review of its IDP according to our IDP Process Plan. This, together with the resolutions of Council during the year, provided us with the governance and management framework according to which we have planned, organized and implemented our activities during the year. In this regard, the following issues are worth mentioning:

- Council's emphasis on improving access of our communities to basic services, with specific reference to water, sanitation, electricity and refuse removal. We have managed to improve the quality of our drinking water through our participation in the Blue Drop assessment process, and the quality of waste water management through our participation in the Green Drop assessment process. The storage capacity for water as well as the capacity of water treatment plants is getting attention and several projects to improve the situation are in progress or to be embarked on soon. This will improve the water service in future
- The legalizing of Waste Disposal sites is in progress. The new site that is under construction in Reitz will focus on recycling to increase the lifespan of the site. Recycling also provides job opportunities for the community as well as reduces the carbon footprint of Nketoana.
- Cemeteries maintenance plan must still to be developed.

Table 8: Nketoana Municipality

Settlement	Area (km ²)
Arlington	5.41
Leratswana	0.82
Lindley	21.07
Mamafubedu	1.38
Ntha	2.16
Petrus Steyn	9.74
Petsana	2.76
Reitz	6.51
Total	5.560.92

Source: <http://en.wikipedia.org>

- Global warming forces the Municipality to start prioritizing the matter of environmental protection.
- Our community engagement and participation processes and structures need to be improved. In this regard, our emphasis in the coming financial year will be on actively partnering with our communities in our efforts to develop our local area.
- Our commitment to obtain a clean audit opinion.

1.3 Demographic Profile of the Municipality

The service delivery profile of the Nketoana municipal area is still largely based on traditional patterns of development and under-development, although enormous progress has been made over since 1994 to ensure access to basic services to the most vulnerable sections of the population.

**Table 11: Household Profile, Census 2011** (StatsSA, Municipal Fact Sheet, Census , 2011)

Category	Unit of measurement	Y2001	Y2011
Persons	Number of Persons	61,950	60,324
Households	Number of households	15,039	17,318
Average household size	Number of persons/house	4.11	3.48
Female headed households	Percentage / households	40% (5975 of 15039)	41% (7056 of 17318 households)
Formal dwellings	Percentage / households	73% (10953 of 15039)	77% (13390 of 17318)
Informal dwellings	Percentage/ households	27% (4086 of 15039)	23% (3928 of 17318)

Taking into consideration the results of Census 2001 and Census 2011, the number of persons in the area has decreased, but the number of households has increased. The implication thereof, are more service points in the municipal area.

Formal dwellings have increased from 73% to 77% between 2001 and 2011. 50% of houses are fully paid off, 20% are rented and 7% are owned, but not yet paid off.

Table 12: Trends in dwellings (Statistics South Africa, 2001, 2007, 2011)

1.4 Powers and Functions of the Municipality

Table 15: *Municipal Powers and Functions, according to Schedules 4 and 5 of the Constitution, 1996* (Municipal Demarcation, 2008)

Function	Authorizations	Definition
Schedule 4		
Air pollution	No	Any change in the quality of the air that adversely affects human health or well-being or the ecosystems useful to mankind, now or in the future.
Building regulations	Yes	The regulation, through by-laws, of any temporary or permanent structure attached to, or to be attached to, the soil within the area of jurisdiction of a municipality, which must at least provide for: Approval of building plans, Building inspections, and
Child care facilities	No	Facilities for early childhood care and development which fall outside the competence of national and provincial government
Electricity reticulation	Yes	Bulk supply of electricity, which includes for the purposes of such supply, the transmission, distribution and, where applicable, the generation of electricity, and also the regulation, control and maintenance of the electricity reticulation network, ta
Fire Fighting	Yes	In relation to District Municipality "Firefighting" means:•Planning, co-ordination and regulation of fire services;•specialized firefighting services such as mountain, veld and chemical fire services;•co-ordination of the standardization of infrastructure
Local tourism	Yes	The promotion, marketing and, if applicable, the development, of any tourist attraction within the area of the municipality with a view to attract tourists; to ensure access, and municipal services to such attractions, and to regulate and structure
Municipal airport	No	A demarcated area on land or water or a building which is used or intended to be used, either wholly or in part, for the arrival or departure of aircraft which includes the establishment and maintenance of such facility including all infrastructure and se
Municipal Planning	Yes	The compilation and implementation of an integrated development plan in terms of the Systems Act.
Municipal Health Services	Partly	Subject to an arrangement with MECs to do the necessary authorizations, or alternatively, subject to amendments to the Structures Act, Municipal Health Service means environmental health services performed by a district municipality
Storm water	Yes	The management of systems to deal with storm water in built-up areas

Function	Authorizations	Definition
Trading regulations	Yes	The regulation of any area facility and/or activity related to the trading of goods and services within the municipal area not already being regulated by national and provincial legislation
Water (Potable)	Yes	The establishment, operation, management and regulation of a potable water supply system, including the services and infrastructure required for the regulation of water conservation, purification, reticulation and distribution; bulk supply to local supply
Sanitation	Yes	The establishment, provision, operation, management, maintenance and regulation of a system, including infrastructure, for the collection, removal, disposal and/or purification of human excreta and domestic waste-water to ensure minimum standard of service
Schedule 5		
Amusement facilities	Yes (Not relevant- lacks capacity)	A public place for entertainment. The area for recreational opportunities and facilities along the sea shore available for public use and any other aspect in this regard which falls outside the competence of the national and provincial government.
Billboards and the display of advertisements in public places	Yes	The display of written or visual descriptive material, any sign or symbol or light that is not intended solely for illumination or as a warning against danger
Cemeteries, funeral parlors and crematoria	Yes	The establishment, conduct and control of facilities for the purpose of disposing of human and animal remains.
Cleansing	Yes	The cleaning of public streets, roads and other public spaces either manually or mechanically
Control of public nuisance	Yes	The regulation, control and monitoring of any activity, condition or thing that may adversely affect a person or a community
Control of undertakings that sell liquor to the public	Yes	The control of undertakings that sell liquor to the public that is permitted to do so in terms of provincial legislation, regulation and licenses
Facilities for the accommodation, care and burial of animals	Yes	The provision of and/or the regulation, control and monitoring of facilities which provide accommodation and care for well or sick animals and the burial or cremation of animals, including monitoring of adherence to any standards and registration requirements
Fencing and fences	Yes	The provision and maintenance and/or regulation of any boundary or deterrents to animals and pedestrians along streets or roads
Licensing of dogs	Yes	The control over the number and health status of dogs through a licensing mechanism.

Function	Authorizations	Definition
Licensing and control of undertakings that sell food to the public	Yes	Ensuring the quality and the maintenance of environmental health standards through regulation, a licensing mechanism and monitoring of any place that renders in the course of any commercial transaction, the supply of refreshments or meals for consumption
Local amenities	Yes	The provision, manage, preserve and maintenance of any municipal place, land, and building reserved for the protection of places or objects of scenic, natural, historical and cultural value or interest and the provision and control
Local sport facilities	Yes	The provision, management and/or control of any sport facility within the municipal area.
Markets	Yes	The establishment, operation, management, conduct, regulation and/or control of markets other than fresh produce markets including market permits, location, times, conduct etc.
Municipal abattoirs	Yes	The establishment conducts and/or control of facilities for the slaughtering of livestock.
Municipal parks and recreation	Yes	The provision, management, control and maintenance of any land, gardens or facility set aside for recreation, sightseeing and/or tourism and include playgrounds but exclude sport facilities.
Municipal roads	Yes- internal roads	The construction, maintenance, and control of a road which the public has the right to and includes, in addition to the roadway the land of which the road consists or over which the road extends and anything on that land forming part of, connected with,
Pounds	Yes	The provision, management, maintenance and control of any area or facility set aside by the municipality for the securing of any animal or object confiscated by the municipality in terms of its by-laws.
Public places	Yes	The management, maintenance and control of any land or facility owned by the municipality for public use
Refuse removal, refuse dumps and solid waste disposal	Yes	the removal of any household or other waste and the disposal of such waste in an area, space or facility established for such purpose, and includes the provision, maintenance and control of any infrastructure or facility to ensure a clean and healthy environment
Street trading	Yes	The control, regulation and monitoring of the selling of goods and services along a public pavement or road reserve
Street lighting	Yes	The provision and maintenance of lighting for the illuminating of streets
Traffic and parking	Yes	The management and regulation of traffic and parking within the area of the municipality including but not limited to, the control over operating speed of vehicles on municipal roads.
Municipal public works	Yes	Any supporting infrastructure or services to empower a municipality to perform its functions

The Municipality –

- *Has been classified as a category B3 municipality in terms of the Local Government Turnaround Strategy classification formula*
- *Is a Water Service's Authority*
- *Has been classified as a vulnerable municipality that has to compile its IDP in terms of the Framework for simplified IDPs*

1.5 Process followed to develop the IDP

The process of compiling this Integrated Development Plan (IDP) was guided by the IDP Process Plan, which was approved by Council and is attached to this document as an Appendix.

1.5.1 Organizational Arrangements

Table 16: *Roles and Responsibilities in the drafting of the IDP*

Stakeholder	Responsibilities
The Mayor and Executive Committee	<ul style="list-style-type: none"> • Political oversight over the IDP.
Municipal Manager	<ul style="list-style-type: none"> • Overall responsibility for the IDP.
IDP Co-ordinator	<ul style="list-style-type: none"> • Responsible for managing the IDP process through. • Facilitation of the IDP process, • Co-ordinating IDP related activities including capacity building programmes, • Facilitating reporting and the documentation thereof, • Making recommendations to the IDP Portfolio Committee, • Liaising with the PIMS Centre and Provincial Sector Departments, • Providing secretariat functions for the IDP Steering Committee and the Representative Forum.
The Financial Portfolio Committee	<p>Ensures that the municipal budget is linked to the IDP, through:</p> <ul style="list-style-type: none"> • Co-ordinating the budget implementation in a manner aimed at addressing the issues raised in the IDP, • Development of the 5-year municipal integrated financial plan.
IDP Steering Committee	<p>The technical working team, also the “<i>drivers of the bus</i>”, consists of 24 members of whom 5 are departmental managers, 4 are deputy managers, 1 is the IDP co-ordinator; 7 are officials; and 7 are councillors. (5 councillors from the IDP standing committee plus the Mayor and Speaker)</p> <ul style="list-style-type: none"> • This committee meets monthly. It was chaired by the mayor. • It is responsible for IDP processes, resources and outputs, • It oversees the monthly status reports that are received from departments,

Stakeholder	Responsibilities
	<ul style="list-style-type: none"> • It makes recommendations to Council, • It oversees the meetings of the IDP Representative Forum, • The committee is responsible for the process of integration and alignment.
IDP Representative Forum	<p>± 80 representatives from local organisations and communities as well as all ward committee members.</p> <ul style="list-style-type: none"> • It forms the interface for community participation in the affairs of the council, • Operates on consensus basis in the determination of priority issues for the municipal area, • Participates in the annual IDP review process, • Meets once a year to discuss progress and shortcomings, • All the wards within the municipal area are represented on this forum through the Ward councilors and Ward committee secretaries.

1.5.2 Measure Performance in terms of the IDP

The Nketoana Local Municipality has a monitoring and evaluation system is in process of being in place that will allow Management and Council to continuously trace progress made with the implementation of the IDP.

The main stage in this process of planning for performance, and then mentoring and evaluating progress towards realizing its vision are as follows:

Table 17: M&E Process

Stage 1	Compilation and annual review of the 5-Year IDP
Stage 2	Finalize the Annual Performance Plan (SDBIP)
Stage 3	Quarterly performance monitoring in terms of the SDBIP
Stage 4	Comprehensive mid-year budget and performance evaluation
Stage 5	Compilation of the Annual Financial Statements at the closing of the financial year
Stage 6	Compilation of the Annual Performance Report at the closing of the financial year
Stage 7	Compilation of the draft Annual Report at the closing of the financial year
Stage 8	Auditor-General audit the financial statements and performance report
Stage 9	The oversight process commences

1.6 Spatial Economy and Development Rationale

The area will have to diversify its economic base in order to lessen its over-dependency on agriculture. The processing of agricultural products is one such possibility to add value to the agricultural resources and products in the area. Furthermore, there is a tremendous human resource base that must be trained and re-trained and allocated to suitable projects. The Department of Social Development can assist the community through job creation and self-sustainability programmes.

There is a notable outflow of cash due to the CBDs offering limited services and products. Re-investment and business development to capture the cash is important to create jobs and a push factor for the economic multiplier effect.

The Municipality is committed to structure its rates and services favourable to attract investment in local industries. Local communities and unions should get involved with these initiatives.

Due to its location and various assets tourism can be developed more vigorously.

To determine if the area has potential for delivering a logistics or nodal point function, one needs to answer the following question: Can the area serve as a distribution point for specific products or service.

To determine if the area has potential for delivery a logistics or nodal point, one needs to answer the following question:

Can the area serve as a distribution point for specific products or service? In the case of Nketoana, a specific area can be identified to serve as an area for convergence for a certain sector. The transport and distribution industry is directly linked to proposed investment opportunities; for both goods freight and transportation of workers. Development of the industry primary involves identification of users of transport, like big commercial farmers as well as emerging; silos; customers of producers of agricultural products; local factories and the commuter component that is tied to taxi industry. There is also need for transport by the wholesale and retail sector.

Identification of existing and potential need for transport and distribution industry would involve identification of relevant sources; i.e. farmers, silos, wholesalers and retailers. Key stakeholders within Nketoana in this regard are VBK, organized agriculture and organized business. The aforementioned would be better to form core members of the Nketoana 'transport and distribution' organ. Emerging entrepreneurs who are interested in transport, warehousing and packaging businesses would benefit most from having direct interaction and participation in the said forum. SEDA can also play an important business support function, through assistance with development of business plans, mentorship and holistic support and development services.

It will be important for the municipality to support Nketoana entrepreneurs to take advantage of the planned Free State Logistic Hub to be established in Harrismith; through collection and provision of information, which could further be supported by initiation of a local Transport and Distribution Forum.

The spatial economy is explained and outlined in detail in the Municipality's Spatial Development Framework, but could in summary be presented as follows:

Table 18: Land use and settlement patterns (Nketoana SDF, 2010-2011)

Nature	Reitz / Petsana	Petrus Steyn / Mamafubedu	Arlington / Leratswana	Lindley / Ntha
Residential	<p>Reitz has 1 300 erven, with 1245 occupied by single dwelling units and 55 flats. Another 183 erven are vacant.</p> <p>Petsana has 3515 residential erven, all surveyed and occupied. There is additional land available (identified) for expansion south and east of Petsana (see map 13). 800 households have settled informally as backyard dwellers and are awaiting the allocation of sites. Only 80% of dwellings are formally built.</p>	<p>Petrus Steyn has 506 erven, with 332 occupied by single dwelling units. Another 172 erven are vacant. The average residential erf is 2000 m².</p> <p>Mamafubedu has 3200 residential erven. The average residential erf is 300 m².</p>	<p>Arlington has 110 occupied residential erven and 38 that is vacant.</p> <p>Leratswana has 1099 occupied residential erven, with no vacant erven. There is an urgent need for additional erven. The Municipality is busy with Township Establishment for 400 erven east of Leratswana, across the R707 road to Senekal.</p> <p>Transnet had 50 residential units on its land that is in individual title ownership. It is located outside the Arlington Municipal area, south of the existing railway line between Bethlehem and Steynsrus.</p>	<p>Lindley has 481 occupied residential erven and 30 vacant erven.</p> <p>Ntha has 2621 occupied residential erven.</p>
Trade & Services	<p>In the centre of Reitz is a well-developed CBD, with various retail business and related services, like agricultural suppliers, wholesalers, retailers, general dealers, hairdressers, funeral homes, pharmacies, bakeries, financial and professional service providers.</p> <p>Petsana predominantly has informal businesses, like spaza shops, vegetable stands,</p>	<p>Petrus Steyn has a CBD hosting with various businesses like, the Co-operation, a supermarket, 20 retail shops and general dealers, 2 liquor stores, a hotel, 2 hairdressing salons, 3 financial institutions, 2 doctor's practices, a pharmacy, an estate agent and 2 funeral homes.</p> <p>Mamafubedu has 31 formal businesses, located at the town's entrance. There are</p>	<p>Business is very limited in Arlington-Leratswana.</p> <p>Arlington's CBD is adjacent the major roads of the R707 to Senekal and the S/213 between Bethlehem and Kroonstad.</p> <p>Leratswana's business node has some community facilities and shops and adjacent to the S/1000 road.</p>	<p>Lindley has a linear CBD, along the north-south main road, hosting about 23 businesses.</p> <p>Ntha has a need for a business node, as there are currently only fragmented shops.</p>

Nature	Reitz / Petsana	Petrus Steyn / Mamafubedu	Arlington / Leratswana	Lindley / Ntha
	backyard repair shops, panel beaters, builders, car washes, welders and so forth.	also numerous informal businesses on residential erven, like taverns, 2 funeral homes, fuel depots and spaza shops.		
Industrial Areas	<p>Reitz-Petsana has 2 industrial areas, located north thereof. It locates numerous light and heavy industries, mostly linked to the agricultural sector.</p> <p>Due to its land availability and sufficient water, Reitz-Petsana has the ability to become Nketoana's industrial hub.</p>	<p>Northwest of Petrus Steyn, nest to the railway station, is grain silos. It is owned by Vrystaat Koöperasie Beperk and has a 102 000 metric ton storage capacity. From May to August, about 25 000 tons of maize are stored and from December to February 35 000 tons.</p> <p>There is an under-utilised industrial area with railway line and external road access.</p> <p>The majority of the industrial functions is located in Petrus Steyn itself and includes a warehouse, engineering works, mill and bakery, 2 potato washing industries, a fuel depot and various light industrial workshops.</p>	<p>The industrial area of Arlington-Leratswana is located on the south eastern side of the townships. The main use of the industrial area is for silos. There are no existing sites/erven available for expansion of the industrial area.</p>	<p>There are industrial sites located on the southern side of Lindley, and also room for expansion adjacent to the railway.</p> <p>Ntha has a couple of light industrial sites on the northern part, located along the main connector road. It is characterised by brick building and associated industries.</p>

1.6.1 Opportunities Offered

The Nketoana Municipality offers its communities, potential investors and other stakeholders several dynamic opportunities. The municipality is situated close to the important N3 main road, between two of the country's primary economic centers, namely those of Durban / Pietermaritzburg and the Gauteng economic hinterland, Johannesburg / Tshwane. The Council's development focus is especially on the following opportunities:

Table 19: Development Opportunities

Development Opportunity	Focus Initiatives
<i>Economic growth</i>	<ul style="list-style-type: none"> • Tourism is the main focus area for expanded economic growth. • Creation of a conducive environment for local economic development and job creation is a central theme in the Municipality's local economic development initiatives. • The Council supports national government's focus on SMME and BBBEE development. There is also an understanding of the importance of promoting local industries, but due to the rural nature of the area, it is not always possible to obtain the required skills and resources required by the Municipality from local sources.
<i>Improved Service Delivery</i>	<ul style="list-style-type: none"> • It is the Municipality's primary role to ensure basic services to its citizens in an equal and balanced manner. These include services such as water, sanitation, refuse removal, waste disposal and the maintenance of roads, streets and pavements. • The maintenance of infrastructure and replacement of ageing infrastructure is a high priority for the Council. Lack of resources severely limits Council's capacity to achieve this.
<i>Good Governance</i>	<ul style="list-style-type: none"> • The Council continuously strives improve the efficiency of its political and administrative systems, structures and processes. • It is a high priority for Council to involve its citizens in decisions affecting them. • Improved financial viability and consistent efforts to improve the efficiency of the municipality's administration and management systems and processes are high priorities.
<i>Integrated Human Settlements</i>	<ul style="list-style-type: none"> • The Municipality has managed to increase access to housing, but the backlog stays a challenge. • The Municipality currently prioritizes the review of its Spatial Development Framework and the design of an appropriate land use management system.
<i>Social and Community Development</i>	<ul style="list-style-type: none"> • It is important for the Council to ensure good quality and well-maintained sport facilities, parks and community halls for its communities.

1.6.2 Improvement Strategies

Alignment of municipal activities towards the IDP and Council resolutions

The municipality has conducted a comprehensive review of its IDP according to our IDP Process Plan. This, together with the resolutions of Council during the year, provided us with the governance and management framework according to which we have planned, organized and implemented our activities during the year. In this regard, the following issues are worth mentioning:

- Council's emphasis on improving access of our communities to basic services, with specific reference to water, sanitation, electricity and refuse removal. We have managed to improve the quality of our drinking water through our participation in the Blue Drop assessment process, and the quality of waste water management through our participation in the Green Drop assessment process. The storage capacity for water as well as the capacity of water treatment plants is getting attention and several projects to improve the situation are in progress or to be embarked on soon. This will improve the water service in future
- The legalizing of Waste Disposal sites is in progress. The new site that is under construction in Reitz will focus on recycling to increase the lifespan of the site. Recycling also provides job opportunities for the community as well as reduces the carbon footprint of Nketoana.
- Cemeteries maintenance plan must still to be developed.
- Global warming forces the Municipality to start prioritizing the matter of environmental protection.
- Our community engagement and participation processes and structures need to be improved. In this regard, our emphasis in the coming financial year will be on actively partnering with our communities in our efforts to develop our local area.
- Our commitment to maintain the clean audit opinion in 2014, in support of the aims of Operation Clean Audit 2014. As it did not realized, we are aiming for a clean audit in 2016/2017

Service Delivery performance

We are reasonably satisfied that we, as management, have contributed positively towards Council's service delivery successes in 2016/17. However, there were also several challenges that need to be addressed. In this regard, the following could be highlighted:

- We are serving 13 000 households in formal residential areas with water (yard connections). These households do not all have access to full waterborne systems of sanitation, due to serious lack of water.
- The municipality strife to deliver affordable services to the poorest of the poor by providing the following Free Basic Services to all registered Indigent residents:

Service	Quantity/Frequency	Amount
Water	Basic + 6kl per month	224.14
Sanitation		145.03
Refuse removal	1 Removal per week per household	172.64
Electricity	Basic + 50 units	169.40
Rates	100%	

- We have reviewed but not finalized the Water Services Development Plan for our Municipality.
- Schools and households in rural areas without access to basic services, with specific reference to water and sanitation are still a challenge.
- Variety of awareness campaigns, including water, sanitation, HIV and Aids, environmental awareness and waste disposal campaigns are planned for the coming financial years.
- The finalization of the process of re-location, closing and developing of landfill sites and making sure that they are properly registered.
- A proper cemetery management and maintenance system.
- Establishment of a local Sports Council.
- Inadequate capacity to address the urgent need for local economic development initiatives, and therefore to implement of the LED Strategy.

Financial Viability and Management

We are striving to ensure a sustainable improvement in the operational cash flow situation of the municipality. Although our cash flows were under severe pressure for a number of consecutive financial years, we have managed to close the 2010/11 financial year with a positive bank balance. This was mostly contributed by sound management of our CFO. In this regard, specific reference could be made of the following:

- Updating of financial record-keeping system
- Paid more creditors electronically in comparison with cheques
- Irregular, wasteful and unauthorized expenditure reduced
- Processing of VAT done electronically through e-filing – money recovered within a month
- All reconciliations to be submitted on a monthly basis

Policies and related administrative matters

The municipality has maintained registers of the required administrative and financial policies throughout the 2016/17 financial year. The employment equity plan was reviewed and progress reports about its implementation submitted to the Department of Labour. The following important plans and policies were also reviewed and/or implemented:

- The Property Rates Act
- The Human Resource Strategy.
- The Indigent Register
- The Supply Chain Management and Procurement Policy
- A debt policy has been submitted to Council
- A risk management plan has been finalized

Shared Services

The municipality entered into an agreement with the district municipality for the utilization of the services of a single, shared Audit Committee, however since 2015, the municipality established its own Audit Committee and it is fully functional.

1.7 Issues Emanating from Community Engagements and IDP Representative Forum Meetings

Following a process of community and stakeholder meetings in each ward as well as meetings held with business people and the private sector during, a whole range of needs, issues and aspirations were identified. These needs were then tabled to the representative forum who was asked to indicate the relevance in respect thereof for each of the units and wards. The results of the survey are unpacked in the following table.

Table 20: *Priority Issues Identified by Stakeholders*

Roads and Storm water	All wards
Water - Sufficient Bulk supply	All wards
Water - Clean drinking water	All wards but critical in Ward 5
Roads and Storm water maintenance	All wards
Refuse removal	All wards
Illegal dumping	All wards
Streetlights	All wards
High mast lights	All wards
Clinic upgrading, more doctors and nurses	All wards
Improved service at clinics: Batho Pele principles	All Wards
Recreational facilities, upgrading of stadiums	All wards
Ablution facilities at cemeteries	All wards
Cemeteries	Ward 3,4
Taxi Ranks	All wards
Commonage	Ward 7
Jobs	All wards

Own refuse dump	21.9%	24.0%	18.6%
No rubbish disposal	10.4%	10.3%	3.9%
Other	-	0.3%	0.6%
Total	100.0%	100.0%	100.0%

The municipality provides Free Basic Services to all residents registered on the Indigent register that is constantly updated to ensure the poorest of the poor are provided with decent basic services. The Free Basic Services consist of the following:

Service	Quantity per month per registered Indigent	Estimated number Indigents for 2017/2018
Water	6 kl	6 000
Sanitation		6 000
Refuse removal		6 000
Electricity		

2.2 Local Economic Development

Agriculture is the main economic activity in the municipality. Others of importance are private households, wholesale, retail and community and social services. If these statistics are analyzed, it is clear that, additional to agriculture, the only meaningful job opportunities in the area are provided by private households (for domestic workers) and by the shops and other businesses in the main towns. The ability of the Nketoana Municipality to create additional employment opportunities is also limited.

The investment of the VKB Chicken project is one of the major developments in the municipality. The abattoir is situated in Reitz and it is planned to create a 1 000 new sustainable jobs for local people. Several farmers are producing broiler chicks on contract for the abattoir. The possibility is now investigated to get a contract for broiler chickens as a community project in Petsana. The municipality has available land for such a project. The promotion of agri-processing plants and other value adding industries should be encouraged in order to diversify the economy of the area. IN Reitz are several small to medium industries, all of which is aimed at satisfying local market needs.

Currently there are no facilities available for the development and training of skills. The promotion of skills development programmes locally are a crucial part of industrial and general employment stimulation. The utilization of existing facilities (e.g. land, buildings, and railways) for industrial promotion purposes is important.

Tourism is the one economic action that has very high potential. In all units of Nketoana there are several guest houses, lodges and guest farms. Each of these facilities has its own attractions and when properly marketed, it can promote tourism in Nketoana.

The population of the area is very poor. The registration of indigent community members is annually a project driven by the CFO and his department. This is an effort to ensure that the poorest of the poor enjoy the benefit of free basic services as promised by the government.

An alarmingly high percentage of the Nketoana population reflects no income, implying extremely high poverty levels. Statistics indicate that at least 68 % of the population is poor.

The municipality has developed a LED Strategy and a draft document is now available. It has to be taken for public consultation and approval by Council. The aim of the document is to aggressively develop SMME and empower entrepreneurs to run sustainable businesses and thus create an income for themselves.

There is always the pitfall to guard against that the community expect the municipality to create jobs, whereas the municipality can only ensure jobs by creating a conducive environment for local economic development.

	Penalties	2.00	2.00	0.00	2.00
	2014 Blue Drop Score	66.99	68.42	81.78	71.49
<p>The 2016 Blue Drop scores indicate a very significant and substantial improvement over the 2012 Blue Drop Report. In contrast to previous assessment, management commitment by the Nketoana LM was clearly evident; the Municipal Manager and Technical Director were present and participated actively throughout the assessment process. In addition, the Municipality was also well represented by the Water Services Manager and all Supervisors.</p> <p>The Municipality was able to show evidence of commitment to improvement in terms of planning processes and implementation. The appointment of WSSA for operations support as well as the enhancement of the monitoring programme is testimony to this. The assessment was truly interactive and the municipal officials were eager to learn and share information with a view to improving water services management and compliance with Blue Drop requirements.</p> <p>Microbiological drinking water compliance, particularly in the Arlington and Lindley systems and to a lesser extent the Reitz system, needs to be addressed to ensure that safe drinking water is supplied which is protective of public health over a lifetime of consumption. Attention must be focused on maintaining an adequate disinfectant residual, both at the water treatment works and in the distribution network. Operational water quality compliance was also unacceptable in all supply systems, particularly associated with significant number of turbidity failures, indicating a requirement for improved process control.</p> <p>(From the 2016 Blue Drop Assessment Results Report)</p>					
<i>Reitz/Petsana:</i>	The raw water is extracted from the Liebenbergsvlei river. It is a constant reliable source and no problems are experienced with this source.				
<i>Petrus Steyn/Mamafubedu:</i>	The only source of water is boreholes and that is not an adequate source. Clean water is delivered by pipeline from Reitz to Petrus Steyn, but even that is still not adequate. A serious challenge still exists to solve this problem.				
<i>Lindley/Ntha:</i>	Water is extracted from the Vals river. It is however not a constant adequate source and in dry seasons acute water shortages are experienced.				
<i>Arlington/Leratswana:</i>	The Spoornet Dam and boreholes are used as water sources. It is however not adequate at all. The Spoornet Dam is filled up with silt and as a result the holding capacity of the dam decreased drastically.				
<i>Rural Areas:</i>	The rural areas mostly make use of boreholes as their water source. Most of the farm owners provide clean drinkable water to their workers without any problems. The municipality is however providing water to a few farms with tanks where there is problems in providing it.				
<i>Other priority issues:</i>	The poor blue drop assessment rating is a concern to the municipality.				
<i>Number/percentage of households without access at all and with below standard access and with access</i>	<ul style="list-style-type: none"> No households are without access All households have water connections on the site 				
<i>Indicate all areas or settlements without access in terms of the basic service standards and</i>	<ul style="list-style-type: none"> The new extensions use street taps awaiting the site connections. Lindley/Ntha 1001 sites. Reitz/Petsana 701 sites. Petrus Steyn/Mamafubedu 394. 				

<i>provide reasons for lack of service</i>	
<i>Indicate all areas or settlements with an unreliable service and provide reasons for this</i>	<ul style="list-style-type: none"> • All formal residential areas have at least RDP level of access. • Petrus Steyn/ Mamafubedu experience periodic water shortages due to inadequate water, as previously discussed • Ageing infrastructure • Upgrading needs especially replacement of asbestos pipes

General:	<ul style="list-style-type: none"> Waterborne systems is the prevalent method of sanitation in the urban areas, and the bucket system is the second method in use. The bucket system is still the main prevalent method of sanitation in rural areas in the municipal area. As much as the total bucket eradication was a target set by the National Government, it is not yet met in Nketoana. The serious lack of water in Nketoana and specific in Petrus Steyn/Mamafubedu and Arlington/Leratswana is constraining the implementation of full water borne systems as method of sanitation provision. All other forms of sanitation need to adhere to standards set by the Departments of Water Affairs and Forestry and Health. In general the bulk sanitation infrastructure in all the urban areas are either insufficient for any future expansion or is close to reaching its full potential in the near future. Before any major internal sanitation upgrading can be considered, the bulk infrastructure will need to be upgraded to accommodate such expansions. The bulk sanitation infrastructure in all the urban areas are either insufficient for any future expansion or is close to reaching its full potential in the near future. The green drop assessment rating is a concern to the municipality. 											
	<ul style="list-style-type: none"> Provision is made on the staff establishment for a Sanitation Section that is adequately resourced. 											
Resource consideration :												

⁵ Source of statistics: (StatsSA, 2011): Wards 1 and 2=Petrus Steyn / Mamafubedu; Ward 3 and 4 = Lindley/Ntha; Ward 5=Arlington/Leratswana and Ward 6-9 = Reitz and Petsana

	<ul style="list-style-type: none"> • Inadequate budget to achieve the national target of providing basic sanitation to all households by 2014 • The municipality's capacity in terms of infrastructure maintenance and upgrading are limited. • The municipality's resource constraints limit its capacity to deal effectively with waste water treatment requirements. • The vacant position of Head of the Technical Department has since been filled.
<i>Indicate all areas or settlements without access in terms of the basic service standards and provide reasons for lack of service</i>	<ul style="list-style-type: none"> • In Arlington/Leratswana there is no water borne sanitation. The reason is the serious lack of water. Septic tanks, VIP and buckets are in use. • In Mamelodi, the sites 394 new sites are using buckets as sanitation method. Serious lack of water prevents the extension of full water borne sanitation. • In Lindley/Ntha 1001 new sites use buckets as sanitation method. • In Reitz/Petsana 701 new sites use buckets as sanitation method.
<i>Indicate all areas or settlements with an unreliable service and provide reasons for this</i>	<p>The services are rendered and the buckets are removed regularly. The only challenge is that the bucket system itself is still not dignified.</p>
<i>Indicate other challenges that are not highlighted above</i>	<ul style="list-style-type: none"> • The obtaining of accurate baseline data is still a challenge • The serious lack of adequate raw water in Petrus Steyn and Arlington need urgent attention. • The vacant post of the Head of the Department for Technical Services and Infrastructure Development places serious constraints on the department to reach goals and targets. The quality of services can be affected. The risk that is posed by the absence of a qualified Head of department cannot be ignored. • The improvement on the Green Drop Status of the service is a priority for the next financial year.

Figure 15: Energy or fuel for lighting (StatsSA, Census, 2011)

Table 51: Situation Analysis, Electricity

<i>Status Quo:</i>	Refer to the Tables below
<i>Areas without access to electricity or other forms of energy. Progress</i>	<ul style="list-style-type: none"> The Mabena Section in Arlington is now connected to the Eskom grid. Eskom is directly providing electricity in Arlington. Eskom completed the project to provide electricity to Mabena. Households affected are 375. The new extension in Ntha is now connected to the network. A new extension of the network was constructed. Households affected are 1001.
<i>Areas with access to electricity and the reliability thereof</i>	<ul style="list-style-type: none"> Eskom is providing electricity everywhere in the municipal area, with the exception of Reitz, Petrus Steyn, Lindley and Ntha. The provision is reliable except in Lindley and Ntha. To solve this problem the upgrading of the network is completed and it improved the provision.
<i>Other challenges</i>	<ul style="list-style-type: none"> Ageing electricity infrastructure in Reitz and Petrus Steyn. Refurbishment of the electricity network is ongoing. Tempering with electricity infrastructure– remove illegal connections and correction at payment of re-connection fees Defaulting accounts The inadequate number of electricians is a serious risk and challenge Identification and implementation of renewable energy options
<i>Other issues:</i>	Electricity is distributed to households both by the municipality and Eskom. Street lighting is provided by the municipality. The communities in town ships prefer high mast lights as means of street lighting. Although regular street lights are still in operation, the municipality started with replacement by high mast lights. In the budget provision is made for a next phase of high mast lights.

General:	Refuse removal services is classified as satisfactory in some areas, but not in all																																																																																																				
Residential sites:	All residential as well as businesses have access to refuse removal services. Residential areas have a service once a week. All the urban areas are serviced, with refuse removal on a weekly basis. Effective co-ordination of this service enhance the functioning of the thereof.																																																																																																				
Business sites:	Businesses are serviced twice per week if necessary.																																																																																																				
Resource consideration:	<ul style="list-style-type: none">The equipment used for removal (mostly a tractor and trailer) are old and in poor condition. The procurement of compactor trucks enhanced the service and it is more effectively rendered now. In the budget provision is made for the procurement of a waste compactor. It will prolong the life of landfill sites.Resources are generally adequate to support current waste disposal requirements.																																																																																																				
Indicate all areas or settlements without access in terms of the basic service standards and provide reasons for lack of service	<ul style="list-style-type: none">Each of the urban units has one waste disposal site, excluded Arlington.Waste transfer center in Arlington is licensed.The capacity and condition of the site in Petrus Steyn needs urgent attention. It reached its capacity and needs to be closed down and a new site needs to be developed. The present site will be properly rehabilitated after closing down.Two landfill sites have been licensed.																																																																																																				
Recycling:	The recycling of waste can be utilized much more as an instrument for job creation. The impact that proper waste recycling can have on the environment must not be underestimated. The LED section of the municipality is making an effort to utilize recycling to the utmost and involve the community to drive the process. With the development of the new Landfill site in Reitz recycling was put as part of the requirements in the tender document.																																																																																																				
Indicate other challenges that are not highlighted above	<ul style="list-style-type: none">Illegal dumping takes place and it is a challenge to stop it. Most towns experience problems with the management of their waste disposal sites, and do not adhere to the requirements of the Department of Water Affairs.																																																																																																				
Waste Disposal:	All landfill sites are now licensed and registered. A solution was found for the landfill site that was too close to the residential area. The site was closed down and rehabilitated according to prescribed requirements. A transfer station was constructed to carry the solid waste to the landfill site in Lindley.																																																																																																				

Table 57: Summary of Refuse Handling Capacity

Area	Number of landfill sites	Legal Status	Frequency of refuse removals	Equipment
Reitz/Petsana	1	Legal	Once per week	1 Compactor Truck 2 Tractors with Trailers
Petrus Steyn/ Mamafubedu	0 Waste is transferred to Reitz. A transfer station is under development		Once per week	2 Tractors with Trailers
Lindley/ Ntha	1	Legal	Once per week	2 Tractors with trailers
Arlington/Leratswana	0 Waste is transferred to Lindley. A transfer station is under development		Once per week	1 Tractor with trailer

2.3.5 Municipal Roads & Storm Water

Table 58: *Status Quo Analysis: Roads & Storm water*

<i>Status Quo:</i>	Refer to Tables below
<i>General, Roads:</i>	<ul style="list-style-type: none"> The condition of roads and storm water in Nketoana needs urgent attention. Although quite a significant part of roads in the towns are tar roads, the condition is deteriorating. Paved roads were constructed in Petsana, Mamafubedu, Ntha and Leratswana. It was an immense improvement and made all areas more accessible.
<i>Storm water:</i>	<ul style="list-style-type: none"> Storm water management is still a challenge to the municipality. The gradient of the areas are is of such a nature that considerable damage can be caused by rain water. The paving of roads prevent damage. It is nevertheless still necessary to improve existing storm water channels and construct more in each area; especially those areas traditional developed urban areas. The following storm water challenges were noted in the Roads and Storm water Masterplan (Nektoana Local Municipality, Roads and Stormwater Masterplan, 2011): <ul style="list-style-type: none"> Construction of sewer manholes in storm water channels and hence increasing the incidence of Storm water Ingress into the sewer systems which studies have indicated that has adverse effects on the capacity of the wastewater treatment works. Standards have to be developed such that the service providers work in accordance with the best practice procedures. Inadequate sizing of the critical hydraulic structures in the various streams in all the towns which lead to serious flooding The storm water channels are seemingly constructed with grades that are lower than the stipulated minimum grades and hence the high incidence of the development of water puddles in the open storm water drains. In addition, this problem also manifests itself as severe sedimentation/silting with the problematic areas leading to large quantities of sand being deposited in the affected areas Major storm water challenges are experienced in Ntha. To alleviate this problem, a new gabion-lined storm water channel is required. Inadequate sizing of culverts that threaten to wash away the newly constructed roads.

*Status of
arterial roads /
internal roads*

- Access roads are priorities
- Streets and storm water network need to be better maintained
- Ageing tar roads become not accessible
- There is a need to properly maintain gravel roads; but the huge backlog in this regard remains a problem
- Some roads are used by heavy vehicles – attention must be given to allocate specific roads to heavy vehicles to keep them out of the CBD areas of the main towns.

Road Length Summary

Settlement	Tarred(m)	Paved(m)	Gravel(m)	Dirt(m)	Total(m)

Table 60: Transportation Infrastructure (Nketoana SDF, 2010-2011)

Infrastructure	Reitz / Petsana	Petrus Steyn / Mamafubedu	Arlington / Leratswana	Lindley / Ntha
Roads	<p>A variety of road networks links Reitz-Petsana with the surrounding area and other urban centers.</p> <p>The provincial road R26 links Reitz with Bethlehem to the southwest and with Frankfort to the northeast.</p> <p>The provincial road R57 links Reitz with Petrus Steyn to the north and Kestell to the south.</p> <p>Reitz is linked to Vrede with the secondary road S/589 and Warden with S/74.</p>	<p>The provincial road R57 between Reitz and Heilbron are also the main access to Petrus Steyn.</p> <p>Petrus Steyn is linked to Lindley and Frankfort with the road R707 and to Edenville with the secondary road S/66.</p>	<p>The provincial road P40/1 between Lindley and Senekal are also the main access to Arlington.</p> <p>Arlington-Leratswana is developed in a linear form and must receive careful future planning.</p>	<p>The R707 between Arlington and Petrus Steyn is the main road link and separates Lindley and Ntha.</p> <p>The P19/1 links Lindley with Steynsrus and Bethlehem and the S/192 links Lindley with Reitz.</p>
Rail	The Reitz-Petsana station services the main railway line linking Gauteng and the Eastern Free	The railway station is accessible from both Petrus Steyn and Mamafubedu and has access to the industrial	The railway line, that links Bethlehem and Steynsrus, runs through Arlington and was responsible for	The railway line between Arlington and Petrus Steyn runs just south of Lindley.

Infrastructure	Reitz / Petsana	Petrus Steyn Mamafubedu	Arlington Leratswana	Lindley / Ntha
	State, used predominantly for the transportation of goods, especially agricultural goods. The station is situated next to the industrial area.	area. It is situated on the line linking Heilbron and Lindley. The line is mainly used for goods transportation, especially to and from the grain silos. The railway station buildings are worn down and vandalized.	the establishment of Arlington and still poses economic developmental potential.	The station is dormant, but should be re-opened and upgraded to promote economic development.
Air	There is no airport, but there is an airstrip north of the Reitz-Petsana urban area. It is principally used by crop-sprayers. The runway is not tarred.	There are no airfields or landing strips.	There are no airfields or landing strips.	There is an informal landing strip.
Public Transport	People from Petsana that works in Reitz walk there, due to the close proximity. Alternatively, there is taxi's servicing Petsana.	Taxis provide the predominant public transportation to especially the people of Mamafubedu.	Taxis provide the predominant public transportation. The taxi rank needs proper development and upgrading.	There is a need for a proper taxi rank.

2.3.6 Cemeteries⁷

There is sufficient cemetery space in Reitz, but Petsana has a newly established cemetery. There are four cemeteries that are fully utilized and closed. Due to high death rate, future cemetery areas need to be identified as a matter of urgency.

In Petrus Mamafubedu there is not adequate cemetery space although the cemeteries are in a good condition. It is an urgent need that additional cemetery space be develop in the 2014/2015 financial year. There is 1 in each settlement that needs to be maintained, fenced and upgraded and another east of the town. There are 2 cemeteries that were fully utilized and have been closed.

In Arlington and Leratswana existing cemeteries are inadequate and a new one has been developed on the Huguenot Farm. Ablution facilities have been constructed at the cemeteries. There are 2 cemeteries that are fully utilized and closed.

The Lindley cemetery is almost fully utilized. A new site has to be identified or the Ntha cemetery needs to be expanded. There are 3 cemeteries that are fully utilized and closed. The Ntha cemetery is adequate

⁷ Information for this section has been obtained from the Municipal SDF, 2010

over the short term, bust has to be properly maintained and upgraded. The community has also requested ablution facilities at the existing cemeteries.

2.4 Social and Community Profile

Table 61: Social and Community Infrastructure (Nketoana SDF, 2010-2011)

Nature	Reitz / Petsana	Mamafubedu	Arlington Leratswana /	Lindley / Ntha
Education	<p>Reitz-Petsana has 4 primary schools, 2 secondary schools, 1 combined school and a Christian Academy.</p> <p>In Reitz there is a satellite District Office of the Department of Education.</p> <p>There is also 1 boarding school and some crèches.</p>	<p>The former Petrus Steyn has 1 primary school (400 learners), 1 secondary school (1117 learners) and 2 crèches.</p> <p>Mamafubedu has 2 primary schools (1 085 and 1 371 learners), 1 secondary school (1 024 learners) and 4 crèches.</p>	<p>There is 1 primary school and 1 secondary school in Leratswana, as well as 2 crèches.</p>	<p>In Lindley and Ntha there are primary and secondary schools, as well as several crèches and day care facilities.</p>
Health Services	<p>Reitz-Petsana boasts a fully equipped provincial hospital with 2 wards and 65 beds. It operates 24 hours a day.</p> <p>There is a municipal clinic in Petsana, a community clinic in Reitz, trauma centre and a step-down facility.</p>	<p>Petrus Steyn as 1 clinic and a mobile clinic services the rural areas.</p> <p>Health facilities in Reitz and Bethlehem are used for more advanced medical treatment and emergencies. All units render home-based services, with volunteers trained by the Provincial Department of Health.</p>	<p>There is 1 clinic in Leratswana.</p> <p>Health facilities in Reitz and Bethlehem are used for more advanced medical treatment and emergencies.</p>	<p>There is a clinic in Lindley, but it is not satisfactory to the community, due to a lack of nursing staff and doctors. Furthermore, "Bato Pele Principles" are not practices by staff.</p>
Welfare Services	<p>The following social welfare services are available, under guidance of the Department of Social Welfare:</p> <ul style="list-style-type: none"> Social workers from Kinderlike Maatskaplike Dienste (KDM). 	<p>Welfare organisations are available in Petrus Steyn and Mamafubedu. Welfare services are rendered by Kinderlike Maatskaplike Dienste (KMD). Social workers from the provincial department, from the Bethlehem office, render service once a week.</p>	<p>Welfare services are rendered by Kinderlike Maatskaplike Dienste (KMD). 	<p>cricket, athletics and swimming. The Petsana Sports Grounds needs to be upgraded.</p> <p>A 9-hole golf course is next to the Vrede Road outside Reitz.</p> <p>Recreation services are provided in the form of a caravan park, various parks and open spaces and also the "Bietjie-Water" holiday resort on the Warden Road, 8 km from Reitz.</p> <p>Tourist attractions are flower farms, bird farms, 2 lion farms and various national monuments. Tourist events are the Bieliemielie (maize) festival in summer, the annual motorbike festival and VKB rugby week. There are 3 guesthouses, 1 hotel, 1 guest lodge and 1 caravan park and 1 holiday resort. There is a game park within Reitz, with black wildebeest, zebras, ostriches, and so forth. There are also annual stud auctions.</p>	<p>jukskei are on offer. In Mamafubedu soccer, volleyball, karate, boxing, Softball, table tennis and pool are practiced, regardless of the lack of formal facilities.</p> <p>Various festivals are held annually, like the Sunflower Festival. There is a hotel, numerous guesthouses, 3 game farms and the renowned Kruispad missionary church available to tourists. There are also flower, nut and bird farms and the annual stud auctions that attract visitors to the area.</p>	<p>Lodge and has many other game farms as tourist attractions, especially for hunting.</p> <p>There are walking trails and annual stud auctions.</p>	<p>also various undeveloped parks.</p> <p>The Vals River runs next to Lindley-Ntha and subsequently various riverside, as well as wetland areas, exist in the area that are of ecological sensitivity and requires proper conservation management. Lindley is the birthplace of Dr Danie Craven. It also has an annual festival called Kuierfees. It has 1 holiday resort, 3 B&Bs and 1 guest farm. There is also the Yeomanny Koppies and graves, famous due to its Anglo-Boer War heritage. The Piekniekdraai resort has great potential and should be developed. In Ntha is a historic Dutch Reformed Church.</p>
Emergency Services	<p>An ambulance service assists Reitz, its district and Petrus Steyn. The local call centre is at Reitz, but it is slow and inadequate.</p> <p>The municipality has a fire brigade service, linked to the traffic department and ambulance service; it services the entire Nketoana.</p>	<p>Qualified paramedical personnel, in conjunction with an ambulance service from Reitz are utilised. The call centre was moved to Bloemfontein, but sometimes there are no answer and long waiting periods for the ambulance.</p> <p>The road conditions in Mamafubedu hamper emergency service delivery.</p>	<p>Ambulances from Senekal are dispatched from the Bloemfontein call centre.</p> <p>Fire fighting services are rendered from Reitz.</p>	<p>Lindley has an ambulance station, with the call centre in Bloemfontein that is not functioning well.</p> <p>There is a bakkie with a fire fighter.</p>

Nature	Reitz / Petsana	Mamafubedu	Arlington Leratswana	/ Lindley / Ntha
		The municipality has a fire brigade service and focus on the municipal area within a 5 km radius. Outside this radius, farmers receive fire hydrants and similar equipment.		
Safety & Security	The SAPS has a Community Service Centre in Reitz and Community Policing Forum.	The SAPS has a local police station in Petrus Steyn and a community policing structure as support.	The SAPS has a Community Service Centre in Arlington and Community Policing Forum.	The SAPS has a Community Service Centre in Lindley and Community Policing Forum.
Other community facilities	Reitz-Petsana each has a community hall and libraries.	Petrus Steyn accommodates the post office and Telkom offices. There is a library in Petrus Steyn and another in Mamafubedu. Mamafubedu also has a community hall.	Arlington-Leratswana each has a conveniently located community hall. There is a post office in Arlington. The library is housed by the primary school.	Lindley and Ntha each have a community hall and libraries. There is a post office in Lindley. The town hall in Lindley is a historic sand stone building that needs upgrading.

2.5 Environmental Management

<i>Environmental Issues</i>	<p>Objective: To identify and develop new and existing environmental conservation areas or reserves</p> <p>Strategies:</p> <ul style="list-style-type: none"> Identify environmental sensitive areas to be conserved. Develop the identified conservation areas with community participation to be tourism orientated. Promote greening (green belts) in all towns to ensure effective urban greening by means of tree planting and landscaping to be maintained as open spaces in future. <p>Objective: To manage negative impacts of development activities</p> <p>Strategies:</p> <ul style="list-style-type: none"> Environmental impact studies applied in all development activities Monitor environmental risks in high risk areas <p>Objective: To promote compliance with environmental legislation</p> <p>Strategies:</p> <ul style="list-style-type: none"> Legislation regarding landfill sites being complied with throughout Nketoana Develop and implement an Environmental Management Plan. Ensure that all landfill sites are licensed. Close down and rehabilitate identified landfill sites. Educate the community regarding waste recycling. Establish and capacitate waste recycling initiatives in all areas.
<i>Environmental capacity building, awareness and empowerment</i>	<p>Objective: To ensure that pollution (air, water, soil and noise) are minimized to acceptable national standards in order to preserve the environment and natural resources</p>

	<p>Strategies:</p> <ul style="list-style-type: none"> • Identify and implement measures to reduce existing air, water, soil and noise pollution incidents • Engage into discussions with the industries to reduce pollution incidents • Monitor the levels of pollution as agreed with the industries <p>Objective: To increase awareness through educating communities about environmental issues and how to preserve the environment</p> <p>Strategies:</p> <ul style="list-style-type: none"> • Engage ward committees to highlight waste dumping and littering issues to the community • Encourage the removal of alien plants and vegetation • Support clean-up campaigns <p>Objective: Develop and establish good governance that is transparent and accountable</p> <p>Strategies:</p> <ul style="list-style-type: none"> • Create and support environmental conservation • Support celebration of environment calendar days • Organize environmental management workshops for community leaders
<i>Identify and develop heritage resources</i>	

2.6 Financial Viability and Management

The Municipality was faced with the challenge to improve on its viability by good and sound financial management. The financial management and discipline bear fruit that resulted in a healthy cash flow and good payment of creditor. The improvement of debt collections was not as positive as expected, but a special effort is envisaged for the next 2 financial years to improve this action. The registration of residents that qualify as indigent customers will also enjoy special attention. These include the implementation of a revised financial management framework, as prescribed in the Municipal Finance Management Act, 2003. In summary, the initiatives of the Municipality in this regard could be summarized as follows:

Table 62: *Priority Issues: Financial Management*

<i>Implementation of the MFMA: Priority Issues</i>	<ul style="list-style-type: none"> • Risk Management systems and procedures. • Implementation of the Budget and Reporting Regulations for Municipalities • Implementation of supply chain management policies, structures and procedures. • Revenue, debtor and creditors management policies and procedures.
<i>Other Priority Issues:</i>	<ul style="list-style-type: none"> • Training of all finance officials in the use of the financial system. • Ensure that all critical vacant positions in the Finance Department are filled: SCM Manager • Implementation of the Action Plan, Operation Clean Audit, to address the audit queries

	<ul style="list-style-type: none"> Measures to avoid over-expenditure and under-spending on the budget.
--	------------------------------------------------------------------------------------------------------------------------

Table 63: *Issues from the 2014/15 Audit Report*

<i>Opinion:</i>	Qualified, with emphasis of matters
<i>Matters emphasized:</i>	Qualified, with emphasis of matters Qualification based on <ul style="list-style-type: none"> An incomplete asset register and errors regarding calculated gross and net carrying amounts. Aggregation of immaterial uncorrected misstatements

2.7 Institutional Transformation and Organizational Development

The Municipality faces several challenges in optimizing its response capacity over the last couple of years. Some of the most noticeable of these were the following:

The Municipality was faced with the challenge to implement several key local policies at a time when it was most vulnerable due to personnel vacancies. These include the municipal planning systems prescribed in Chapters 4 and 5 of the Municipal Systems Act, 2000. In summary, the initiatives of the Municipality in this regard could be summarized as follows:

Table 64: *Situation Analysis: Institutional*

<i>Integrated Development Planning</i>	The Municipality is currently engaged in a process of streamlining its IDP and related planning activities in order to improve the credibility of its strategic planning documents. Nketoana was also part of the pilot project of compiling a Simplified IDP for smaller municipalities. The credibility of the IDP improved and the only issue to be improved on is the availability of sector plans.
<i>Organizational Performance Management System</i>	<ul style="list-style-type: none"> Finalization of the Municipal Service Delivery and Budget Implementation Plan. Finalization of the 3-5 Year IDP Implementation Plan. Design and implementation of a municipal performance scorecard. Streamlining of the contents and processes for the compilation of quarterly, mid-year and annual performance reports. The Scorecard was implemented successfully and performance reporting improved.
<i>Individual Performance Management System</i>	<ul style="list-style-type: none"> Implementation of the Regulations for the Performance Management of the Municipal Manager and Managers directly accountable to the Municipal Manager, 2006 Finalization of Performance Agreements for section 57 managers. Preparation of annual Performance Plans for senior managers.

	<ul style="list-style-type: none"> • Annual evaluation of the performance of section 57 managers. • The next phase of cascading down to other levels of employment will be done in 2014/2015
--	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

No system for the measuring of productivity is in place. The municipality's strategic plan should be implemented simultaneously with the IDP, after finalisation. The IDP Specialised Plan namely the Performance Management System, will allow for increased productivity and measuring of performance to the lowest job level in the organisation. An electronic management information system, which allows for budget and votes allocation control, but could be utilised more effectively.

Table 65: Analysis of Institutional Policies and Systems

Issue	Compliance	Comments
Availability of key staff	✓	Key vacancies <ul style="list-style-type: none"> • Town Planner (in terms of report from COGTA) Several key management positions, as well as key operational staff positions filled <ul style="list-style-type: none"> • SCM Manager Other important vacancies: <ul style="list-style-type: none"> • Town Planner (in terms of report from COGTA) • Electrician (Critical) • Manager Legal Services
Organizational Structure	✓	The organizational structure has been reviewed annually. A post of Manager Tourism was included
Skills Development Plan	✓	The Municipality has prepared and submitted reports in respect of the Skills Development Plan as legislatively required.
HR Strategy	✓	The HR Strategy has been approved by Council and is reviewed annually.
Individual and Organizational Performance Management System	✓	Both an individual, as well as an organizational performance management system has been introduced and the PMS Policy is reviewed annually.
Monitoring, evaluation and reporting systems and processes	✓	The M&E systems of the Nketoana Local Municipality makes provision for measuring IDP targets by relating these targets to the in-year key performance indicators and targets in the Service Delivery and Budget Implementation Plan (SDBIP). Quarterly performance assessments are then conducted, whereby actual performance for the quarter is measured against targets for the same period. This result in quarterly performance reports to Council, the issuing of the mid-year budget and performance report and ultimately the Annual Report.

2.8 Good Governance & Public Participation

Internal Audit Function:

Nketoana has an internal audit unit situated in the office of the Municipal Manager. It is headed by a manager who is responsible for Internal Audit as well as Risk Management. The unit is further staffed by an Internal Audit officer and a Risk Management officer. The unit is

responsible for an annual Risk assessment and Risk Register as well as the compilation of an annual audit plan based on the risk assessment and register. After execution of the plan, reports are generated and submitted to management. It is meant to be viewed and evaluated by the Audit Committee and finally submitted to Council to complete the Oversight cycle. Nketoana still have a challenge to complete this cycle and the aim is to improve on it in the coming financial years.

Audit Committee:

Nketoana does now have an Audit Committee of its own. The Audit committee was established and well qualified members were appointed and it is functioning well. The committee is adding value to the municipality by improving on its aim of Good Governance. The committee also serves as the Performance Audit Committee.

Oversight Committee:

The oversight function of Council is of the utmost importance to ensure that the administration is busy with what Council is intended to deliver to the community. The oversight function is often confused with political interference. The Council has a definite oversight role to play and it should be done with all seriousness. There is an Oversight Committee as appointed by Council. The Oversight report regarding the Annual Report is in progress. It is one of the targets that the Oversight Committee should be fully capacitated and trained to ensure functionality and objective reporting.

Ward Committees:

Ward Committees were established in all 9 wards of Nketoana after the election of the new Council. The Ward Councillor is the chairperson of the committee and 10 members are elected per committee. The Ward Committees are fully functional and are well involved in the processes of Public Participation. The Ward committees attended training as offered by SALGA. It was well attended and the capacity obtained showed in the conduct of the committees during the IDP Public Participation consultation. Ward Committee meetings are held regularly.

Council committees:

The Section 79 Committee meetings of Council are held regularly for each department. It is scheduled to be done monthly, but definitely before Council meetings are held. The Councillor dedicated for each department is chairperson in the meetings and the Director and staff members of each department serve as specialist advisors. The reports are submitted to EXCO and Council meetings. It serves as an early detection method for challenges regarding service delivery.

Supply Chain Committees:

The Supply Chain policy was developed and approved by Council. The Bid Committee is fully operational with the following functional committees:

Bid Specification Committee: 6 members

Bid Evaluation Committee: 6 members

Bid Adjudication Committee: 5 members

The target is to complete tenders within 60 days after closure of the tenders.

Batho Pele

To promote this notion of "putting people first" and to provide a framework for the transformation of public service delivery, government introduced the concept of *Batho Pele*, "people first" in 1997. This notion was expanded in the White Paper on Transforming the public service, also known as the *Batho Pele White Paper*, which provides a policy framework to ensure that *Batho Pele* is woven into the very fabric of government.

In carrying out their duties, public servants are guided by the following Batho Pele Principles:

1. **Consultation:** Citizens should be consulted about the level and quality of the public services they receive and wherever possible, should be given a choice regarding the services offered;
2. **Service Standards:** Citizens should be told what level and quality of public service they will receive so that they are aware of what to expect;
3. **Access:** All citizens have equal access to the services to which they are entitled to;
4. **Courtesy:** Citizens should be treated with courtesy and consideration at all times;
5. **Information:** Citizens should be given full, accurate information about the public services to which they are entitled to;
6. **Openness and transparency:** Citizens should be told how national, provincial and local departments are run, how much they cost and who is in charge;
7. **Redress:** If the promised standard of service is not delivered, citizens should be offered an apology, a full explanation and a speedy and effective remedy and when complaints are made, citizens should receive a sympathetic, positive response;
8. **Value for money:** Public services should be provided economically and efficiently in order to give citizens the best value for money;

2.8 SWOT Analysis

Table 66: *SWOT Analysis*

Opportunities	Threats
<ul style="list-style-type: none">• Tourism is the main focus area for expanded economic growth.• Creation of a conducive environment for local economic development and job creation is a central theme in the Municipality's local economic development initiatives.	<ul style="list-style-type: none">• Refurbish the old infrastructure to reduce water losses• Replacing of asbestos pipes• Continuously training the community to safe water, as Nketoana is facing serious lack of water.• Fencing of sport facilities to secure and protect it.• Job creation must enjoy priority.

<ul style="list-style-type: none"> • The Council supports national government's focus on SMME and BBBEE development. There is also an understanding of the importance of promoting local industries, but due to the rural nature of the area, it is not always possible to obtain the required skills and resources required by the Municipality from local sources. • It is the Municipality's primary role to ensure basic services to its citizens in an equal and balanced manner. These include services such as water, sanitation, refuse removal, waste disposal and the maintenance of roads, streets and pavements. • The maintenance of infrastructure and replacement of ageing infrastructure is a high priority for the Council. Lack of resources severely limits Council's capacity to achieve this. • The Municipality has managed to increase access to housing, but the backlog stays a challenge. • The Municipality currently prioritizes the review of its Spatial Development Framework and the design of an appropriate land use management system. • Three towns (Arlington, Lindley and Mamafubedu) are lined on the Riemland Tourism Route. 	<ul style="list-style-type: none"> • The municipality will prioritize to ensure that the LED function is better resourced; including the appointment of skilled people • Water and electricity losses to be strictly controlled (specifically the
Strengths	Weaknesses
<ul style="list-style-type: none"> • The Council continuously strives to improve the efficiency of its political and administrative systems, structures and processes. • It is a high priority for Council to involve its citizens in decisions affecting them. • It is important for the Council to ensure good quality and well-maintained sport facilities, parks and community halls for its communities. • Improved financial viability and consistent efforts to improve the efficiency of the municipality's administration and management systems and processes are high priorities. 	<ul style="list-style-type: none"> • Lack of funding remains a serious challenge • Fill critical budgeted vacant positions • Reduce grant dependency. Revenue collection must improve and operating expenditure must be reduced • Managing overtime on a monthly basis • Increase number of indigent registrations • Retaining trained finance personnel • Capacity-building by ensuring relevant training for all personnel • Enhance Performance management by obtaining software. • Enhance Performance Management by regular evaluations

Section 3

Development Strategies, Programmes and Projects

3.1 Vision and Mission of the Nketoana Local Municipality

Vision:

“A municipality that will care for its residents and provide a safe and crime-free environment conducive for sustainable development.”

Mission:

- To foster a spirit of unity and communication in the pursuit of achieving the municipal objectives
- To provide a democratic, accountable and ethical government for the Nketoana community
- To render services in an effective, efficient and economic manner
- To promote sound and transparent financial management in accordance with legislative requirements
- To accelerate programmes that will help meet the socio-economic needs of the Nketoana residents

3.2 IDP Priorities

Table 67: IDP Priorities

1	Water	<ul style="list-style-type: none"> To ensure that 100% of households in formal and informal settlements in the Nketoana municipal area have access to basic level of water by 2017 To ensure that 30 farms have access to water source by 2017 To ensure that all (100%) of registered indigents have access to free basic water
2	Sanitation	To ensure that 100% of households in formal and informal settlements in the Nketoana municipal area have access to basic level of sanitation by 2017
3	Municipal Roads and Storm water	To ensure that internal roads in the Nketoana municipal area are maintained and/or upgraded to facilitate economic and social activity required for the sustainable development of the municipality; considering the capacity limitations facing the Municipality
4	Urban Planning	To ensure an effective Urban Planning that will promote proper spatial planning to address sustainable development and social cohesion
5	Local and Rural Economic Development	<ul style="list-style-type: none"> To create employment opportunities in the Nketoana municipal area To create an environment conducive for investment and increased economic activity in the Nketoana municipal area
6	Institution-building	<ul style="list-style-type: none"> To monitor, evaluate and improve the financial viability of the Nketoana local municipality as measured in terms of the key indicators of the Municipal Planning and Performance Management Regulations, 2001 To facilitate institutional transformation and development in the Nketoana local municipality To ensure good governance and public participation in the Nketoana local municipality
7	Refuse Removal	To ensure that all households in urban areas have access to waste removal according to waste removal standards and good waste management in the municipal area by June 2017
8	Electricity Reticulation	To ensure that 100% of households in the Nketoana municipal area have access to electricity by 2017
9	Cemeteries and Perks	To ensure effective management of graveyards and cemeteries in the Nketoana municipal area
10	Sport and Recreational Facilities	To ensure access to quality sport and recreational in the Nketoana municipal area
11	Traffic and Parking	To ensure effective traffic management and parking in the Nketoana municipal area
12	Firefighting	To ensure effective firefighting in the Nketoana municipal area

3.3 Development Objectives, Strategies, Programmes and Projects: *Basic Service Delivery and Infrastructure Investment*

(Link to the Back-to-Basics Programme: Infrastructure

*Description: National Development Plan (NDP) makes it clear that meeting our transformation agenda requires a much **higher and more focused intergovernmental commitment** towards functional municipalities and a capable machinery at a local level that can create safe and healthy and economically sustainable areas where citizens and people can work, live and socialize;*

- **Back to Basics remains government wide programme for improving performance at Local Government level:**
 - improve the functioning of municipalities by getting the **basics** right to achieve developmental outcomes.
- **Pre-conditions** for developmental outcomes:
 - Human resources
 - Policy
 - Legislation

The 2nd Phase of Back to Basics required the municipalities to :

- Assessment of status quo and remaining challenges/outstanding matters for new councils.
- Identify **key priority actions** to turn around performance based on the FIVE B2B pillars. (*fast track/unlock/improve efficiencies etc.*)
- Develop/review municipal specific B2B action plans for adoption by new councils (5year targets).
- Identify key sector contributions and solicit commitment to support municipal action plans.

The second phase of Back to Basics is linked to a 10 point plan that has specific responsibilities for Local municipalities, District municipalities, Provincial; Government

10 Point Plan

1. Ensuring Positive Community Experiences.
2. Municipalities Consistently Receiving Disclaimer Audit Opinions.
3. Revenue Enhancement Programme.
4. Appointment of Senior Managers In Municipalities.

5. Services and Infrastructure.
6. Implementation of Forensic Reports.
7. Metropolitan B2B Programme.
8. Strengthening Roles of District Municipalities.
9. Spatial Regional Integration Zones / Spatial Contracts.
10. Strengthen Capacity and Role of Provincial CoGTA Departments

The planning, implementation and maintenance of basic infrastructure is critical for sustaining basic standards of living and economic activity in our towns and cities. All municipalities will develop service standards for each service, and will establish systems for monitoring adherence to these standards. Municipalities will be required to report on ward-level service delivery plans. We expect municipalities to perform the following basic activities, and the performance indicators will measure the ability of our municipalities to do so:

Develop fundable consolidated infrastructure plans.

- Ensure Infrastructure development maintenance and reduce losses with respect to:
 - ✓ Water and sanitation.
 - ✓ Human Settlements.
 - ✓ Electricity.
 - ✓ Waste Management.
 - ✓ Roads.
 - ✓ Public Transportation.
- Ensure the provision of Free Basic Services and the maintenance of Indigent register)

The Back to Basics Programme is now entering the 2nd Phase in which

3.3.1 Priority 1: Water

Table 68: *Management Planning Framework, Water*

Requirement in terms of the Simplified IDP Framework	Status
Input Plan: Status of the Water Service Development Plan	<ul style="list-style-type: none"> The Water Service Development Plan is done with the assistance of National Department of Water Affairs and has been approved by Council. However, the plan need urgently to be reviewed to ensure proper planning for this 4th generation IDP.
Implementation Plan: Operation and Maintenance Plan	<ul style="list-style-type: none"> Not available. Targets for the operation and maintenance of water infrastructure and services are contained in municipal planning documents (IDP, SDBIP)
SDF Framework	<ul style="list-style-type: none"> Bulk infrastructure should be provided, upgraded and maintained continuously Effective service delivery to the entire community
Indicate the national target for this service	<ul style="list-style-type: none"> 100% access to basic level of service within 200m walking distance from the dwelling by 2018 <p><i>Definition:</i> Basic level of water refer to access to water within a 200 meter radius from a dwelling</p>
Indicate the approved service level for the municipality informed by the SDF	<ul style="list-style-type: none"> The service level for urban areas is water connections on each site. In the rural areas the farm owners take responsibility for their own as well as their workers water provision. In most cases the water connection is near the dwellings. The municipality provides water in tankers one a week to 4 farms.
Indicate whether the municipality is the service authority or not	<ul style="list-style-type: none"> Nketoana is a water service authority.
Status of the provision of the basic services	<ul style="list-style-type: none"> All registered indigent residents in Nketoana receive the free basic service in water at 6kl per household per month.
Indicate other challenges that are not highlighted above	<ul style="list-style-type: none"> <i>The obtaining of accurate baseline data is a serious challenge</i> <i>The serious lack of adequate raw water in Mamafubedu and Arlington need urgent attention.</i> The improvement on the Blue Drop Status of the service is a priority for the next financial year.

Table 69: *Development Objectives, Strategies, Programmes and Projects, Water*

Strategic Objectives	Outcome Indicators	Strategies	Programmes	Projects
To ensure that 100% of households in formal and informal settlements in the Nketoana municipal area have access to basic level of water by 2018	All (100% of) households in formal and informal settlements having access to basic level of water by 2018. This includes 1,331 additional households provided with basic level of water (water	<p>The Municipality's water-related strategies are informed by the Water Services Development Plan.</p> <p>The target of 100% access to basic level of water requires the following interventions:</p> <ul style="list-style-type: none"> Maintenance of existing levels of accessibility to clean, potable water in those areas where the service is currently available; Expanding access to new residential and business sites in formal areas, and 	<ol style="list-style-type: none"> Water Infrastructure: <ul style="list-style-type: none"> Expanding water infrastructure and the water network Operation and Maintenance of water infrastructure Water Quality Management <ul style="list-style-type: none"> Water Quality Control 	<p>Water-related Projects:</p> <ul style="list-style-type: none"> Upgrading purification plant of Reitz from 13 to 17 mega liters per day and construction of High Lift Pump Station at Reitz Pipeline of 10km from Reitz to Petrus Reitz

access to basic level of sanitation by 2017	basic level of sanitation <ul style="list-style-type: none"> All (100%) of registered indigents (4,645 persons) receiving free basic sanitation on at least RDP level 	communities, but for formal settlements it will. The municipality's strategy in this regard focuses on ensuring that all households in formal settlements have access to at least RDP level of sanitation. This strategy include maintaining, upgrading and extended the infrastructure required to maintain such levels of access. An important element of the municipality's strategic approach towards sanitation is to improve its waste water management standards (green drop status). The conversion of VIP toilets to water borne systems is an important element of the municipality's strategic framework for sanitation services.	sanitation infrastructure 2. Expansion of existing sanitation infrastructure and network 3. Waste Water Management 4. Access to free basic sanitation to all registered indigents	<ul style="list-style-type: none"> Petsana: Provision for Sanitation and Toilet Structures at 502 stands Feasibility study – provision of sanitation to rural farming communities Develop and implement a sewer network and treatment system in Arlington
<p><i>Key definitions:</i></p> <ul style="list-style-type: none"> The term 'formal settlements' refer to the urban settlements of Petrus Steyn, Mamafubedu, Lindley and Ntha, Arlington and Leratswana and Reitz/Petsana. It excludes the rural farming communities. The norm of all (100%) refer to a base-line of 15,331 households in formal settlements <p><i>A <u>basic sanitation service</u> is the provision of the least cost⁸:</i></p> <ul style="list-style-type: none"> <i>sanitation facility that is appropriate to the settlement conditions;</i> <i>operational support necessary and appropriate for the safe removal of human waste and black and/or grey water from the premises; and</i> <i>communication of good sanitation, hygiene and related practices.</i> 				

There is an important segment of the municipality's mandate that requires very specific interventions, due to the unique nature of the circumstances that they face. This element refers to water and sanitation facilities at schools, clinics and other social facilities in the municipal area. However, due to capacity constraints, no projects in this regard have been identified in this IDP, and the municipality will not be in a position to allocate resources to this function during the terms of the present Council. From a strategy perspective, the Municipality focuses on dealing with this matter by collaboration with key sector departments, with specific reference to Education, Water Affairs and Health, to promote accessibility to clean, good quality drinking water and sanitation facilities to schools and clinics in the municipal area.

3.3.7 Priority 9: Cemeteries and Parks

Table 93: Objectives, Strategies, Programmes and Projects: Cemeteries and Parks

Strategic Objectives	Outcome Indicators	Strategies	Programmes	Projects
To ensure effective management of graveyards and cemeteries in the Nketoana municipal area	6 operational cemeteries	<p>The strategy of the municipality regarding cemeteries focus on the following key considerations:</p> <p>Cemeteries:</p> <ul style="list-style-type: none"> Adequate provision for safe and well maintained graveyards and cemeteries in the IDP, SDBIP and annual budget The need to start financing alternative burial and related initiatives Upgrading and maintenance of access roads to cemeteries Utilization of a DBSA loan to improve cemeteries Investigate possibility to utilize EPWP to support job creation Investigating the possibility of obtaining funds for greening and beautification of cemeteries and parks from the Department of Environmental Affairs Cemeteries must be well maintained and a greening project in this regard is a high priority. The fencing of cemeteries, as well as the maintenance of access roads thereto, are high priorities for the Municipality. <p>It must also be stated that the maintenance, management and upgrading of cemeteries compete for limited funds, mostly from property tax, with issues that are higher priorities in the IDP, such as roads.</p> <p>There is a need for ablution facilities at current functioning cemeteries and the establishment of new cemeteries, but these needs could only be addressed within the context of available resources and budget. A proper cemetery management and maintenance system will be addressed when the municipality procures a GIS.</p> <p>Parks:</p> <ul style="list-style-type: none"> Develop parks in formerly disadvantaged areas. 	Cemetery operations and maintenance	<ul style="list-style-type: none"> Upgrading of Mamafubedu cemetery Identify parks for upgrading and apply for funding from Environmental Affairs (not funded)
<p>Definitions:</p> <ul style="list-style-type: none"> The term 'operational cemeteries' means cemeteries that are maintained and safe to the extent that the Municipality's current resource capacity allows. There is a need to attend to safety and general maintenance at cemeteries, but resources to perform this function effectively are lacking and the municipality does not have adequate budget capacity to address the matter effectively over the short term; except of a proposed DBSA loan could be partly utilized for this purpose.

(Link to the Back-to-Basics Programme:

Sound financial management is integral to the success of local government. National Treasury has legislated standards and reporting requirements, and based on our monitoring of the indicators, we will identify the key areas emerging from the profiles and partner with National Treasury to support the remedial process. Performance against the following basic indicators will be constantly assessed:

- The number disclaimers in the last three – five years.

- Whether the budgets are cash backed.
- The percentage revenue collected.
- The extent to which debt is serviced.
- The efficiency and functionality of supply chain management.)

3.5 Financial Management

3.7 Good Governance and Public Participation

(Link to the Back-to-Basics Programme:

Good Governance

Good governance is at the heart of the effective functioning of municipalities. Municipalities will be constantly monitored and evaluated on their ability to carry out the following basics:

- The holding of Council meetings as legislated.
- The functionality of oversight structures, s79 committees, audit committees and District IGR Forums

- Whether or not there has been progress following interventions over the last 3 – 5 years.
- Assess the existence and efficiency of Anti-Corruption measures.
- The extent to which there is compliance with legislation and the enforcement of by laws
- The rate of service delivery protests and approaches to address them

Public Participation

Measures will be taken to ensure that municipalities engage with their communities. We will enforce compliance with the provisions of the Municipal Systems Act on community participation. Municipalities must develop affordable and efficient communication systems to communicate regularly with communities and disseminate urgent information. The basic measures to be monitored include:

- Assessing the existence of the required number of functional Ward committees.
- The percentage of ward committee's grants spent.
- The number of council effective public participation programmes conducted.
- The regularity of community satisfaction surveys carried out.)

Section 4

High level Sector Plans (SDF)

4.1 Spatial Development Framework

The Spatial Development Framework guides the drafting of the IDP, and is indeed the key strategic planning document of the Municipality. In a nutshell, the SDF of Nketoana Local Municipality proposed the following strategic interventions to achieve spatial integration:

Table 120: Spatial Integration: Proposals from the SDF (Nketoana SDF, 2010-2011)

<i>Reitz-Petsana</i>	<ul style="list-style-type: none"> • The Green Belt and railway line between Reitz and Petsana makes full integration extremely difficult, • The Green Belt should be for low intensity land uses, such as tourism and recreational activities and its commercial applications. • Activities based on commerce and job creation should be extended towards the railway station that is accessible to both Reitz and Petsana. • Safe crossings over the railway line should be constructed following existing paths.
<i>Petrus Steyn-Mamafubedu</i>	<ul style="list-style-type: none"> • If the industrial development takes place, it should be made accessible from the medium and low-income residential areas. Therefore, a road is proposed between the S512 to Lindley and the S66 to Edenvale. • Residential Densification & Mixed land Use: this centrally located land use will draw people from Mamafubedu and Petrus Steyn for residential and business purposes. Physical integration is complex because of the dams and river running south of Petrus Steyn and North of Mamafubedu and this land use will serve as a catalyst for integration.
<i>Arlington-Leratswana</i>	<ul style="list-style-type: none"> • The Lindley - Senekal road (P40/1) and the streams that flow through the area provide a physical barrier to integration of Arlington and Leratswana. • Integration will be enhanced with future access roads between Arlington and Leratswana. • The residential development will contribute further to integration. • All land in Leratswana is optimally developed and therefore densification cannot be a developmental tool or aim. • The proposed residential development will hamper urban sprawl and an effective and functional urban structure will be created.
<i>Lindley-Ntha</i>	<ul style="list-style-type: none"> • The Petrus Steyn - Arlington road and the wetland provide a physical barrier to integration of Lindley and Ntha. • The proposed Development Corridor, which is also the existing access to Lindley and Ntha and creates the opportunity to integrate the communities. • No development should occur within the road restriction area of the Petrus Steyn - Arlington Road. • There is an existing pedestrian route between Ntha and the Lindley CBD. It should be upgraded to increase safe pedestrian crossing and for vehicle use. • The average erf is 2000m² in Lindley and thus could be ideally subdivided to ensure densification.

4.1.1 Implications for the drafting of the IDP

Table 121: *Implications of the SDF for the drafting of the IDP*

<i>Relation to the Status Quo Analysis</i>	The SDF provides guidelines for the identification of almost all development objectives, programmes and projects in the IDP. It determine where the key needs are in the municipality, and where priority interventions are required to achieve sustainable development. From this perspective, almost all the status quo analyses done in this IDP relate to the SDF as a primary or secondary source of reference.
<i>Contribution to objectives</i>	The Municipality identified its IDP priorities, and subsequent the development objectives defined in= this IDP, from the development challenges and priorities expressed in the SDF. The priority objectives contained in this IDP reflect the development priorities in the SDF.
<i>Relationship with Programmes and Projects</i>	The development Programmes and Projects identified and contained in this IDP represent are based on the activities required to be performed in order to achieve the development objectives derived from the SDF.

4.2 Input Sector Plans

Three key sector plans represent the cornerstones for sustainable development in the Municipality, namely:(Governance, 2012)

- Integrated Human Settlements Plan
- Local Economic Development Plan
- Environmental Management Plan

Figure 17: *Triple Bottom Line Approach to Sustainable Development*

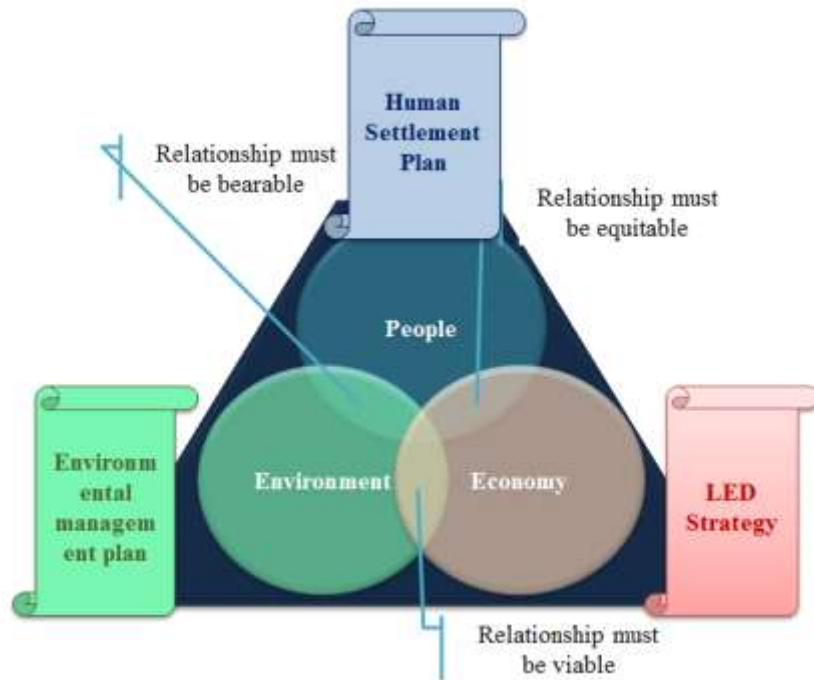

Table 122: *Status of sector plans required for sustainable development*

Integrated Human Settlements Plan	Not available. Currently being drafted
Local Economic Development Plan	Available and approved
Environmental Management Plan	Available

4.2.1 Vision and Framework towards Sustainable Development

The Nketoana Municipality considered the following consideration when dealing with the issue of planning for housing delivery in the municipal area:

- Assisting the primary executing authority (the Provincial Department responsible for housing) to address housing backlogs in the municipal area.
- Incorporating planning to accommodate future housing demand in the Housing Plan to be finalized during the 2013/14 financial year.
- Taking care to establish sustainable human settlements, with spatial integration between housing, basic services infrastructure, transportation and access to social amenities and services.

Table 123: *Implications of issues related to sustainable human settlements for this IDP*

<i>Relation to the Status Quo Analysis</i>	Statistics reflecting access to housing in the municipality is included in the Status Quo Analysis, paragraph 2.3.1. With 71,3% of the population that has access to acceptable level of housing, major strides have been made
--------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	to address the housing backlog in the area. However, a logical and strategic approach is still required to illuminate persistent backlogs and place the housing administration function on a sound footing.
<i>Contribution to objectives</i>	A variety of strategic objectives in this IDP are directly or indirectly dependent on effective management of the housing function to enable the municipality to achieve the intended outcomes. This include the direct relationship between housing the provision of bulk services, such as water, sanitation, refuse removal and electricity. However, on a more human level, it also refer to the objectives to create better understanding and cooperation between the municipality and its communities.
<i>Relationship with Programmes and Projects</i>	Programmes and projects that are directly affected by the housing strategy of the Municipality include those where the aim is to expand water, sanitation and electricity infrastructure to new settlements, as well as programmes relating to spatial and urban planning.

4.2.2 Environmental Management Planning

The Environmental Management Plan is completed and approved. However, there is an understanding by management of the importance to promote a healthy environment. In this regard, the inter-dependence between environmental management planning and environmental impact studies in the case of technical and other projects that may potentially harm the environment, or scarce environmental resources (such as water) is especially important.

Table 124: *Implications of issues related to environmental management for this IDP*

<i>Relation to the Status Quo Analysis</i>	The Municipality is aware of the potential impact of its intended projects and activities on the environment, and the Environmental Management Plan that is currently being finalized, contains a comprehensive analysis of the specifics of the current realities and situation.
<i>Contribution to objectives</i>	It is especially objectives and projects that imply a direct interaction with the environment where a large degree of sensitivity regarding environmental issues are present. In this regard, special mention could be made of water-related projects and initiatives, waste water management, roads, storm water, refuse removal, electricity, sport, recreation, traffic and firefighting. Refer to paragraph 3.7 in this IDP.
<i>Relationship with Programmes and Projects</i>	

4.2.3 Integrated Economic Development Plan

The Municipality's Integrated Economic Development Plan link the strategies of the municipality to national and provincial legislation and strategies related to economic development. It is currently the guiding policy and strategy document for the municipality's LED initiatives, until such time as the LED Strategy that is currently in the final stage of preparation, becomes available.

Table 125: *Implications of issues related to the Integrated Economic Development Plan for this IDP*

<i>Relation to the Status Quo Analysis</i>	Paragraph 2.2 of this IDP exposes some key economic development statistics for the Municipality.
<i>Contribution to objectives</i>	The IEDP's main importance is in respect of the objectives and strategies for local economic development and job creation included in this IDP.
<i>Relationship with Programmes and Projects</i>	The programmes and projects related to job creation, SMME and BBBEE promotion, and other programmes aimed at job creation, such as the EPWP, have their origin in the recommendations of the IEDP.

4.3 Input Sector Plans and Strategies

Table 126: *Status of input sector plans*

Water Services Development Plan	The WSDP is available and needs to be reviewed.
Integrated Waste Management Plan	The plan was approved and available.
Roads and Storm Water Master Plan	Available – compiled in 2011 for 2012-2017. It will be reviewed to be ready for the next generation of the IDP 2017-2022.
Integrated Energy Plan	No plan available. It is under development to be ready for the next generation of IDP 2017-2022.
Sports and Recreation Plan	No plan available

4.4 Strategy Support Plans

Table 127: *Status of strategy support plans*

Disaster Management Plan	Not available. Is currently in the process of being drafted and will be approved during the 2016/2017 financial year.
Integrated Comprehensive Infrastructure Plan	Not available

4.5 Implementation Support Plans

Table 128: *Status of strategy implementation plans*

Institutional Plan	Not currently available. It is a target in this IDP to develop the Plan during the 2016/2017 financial year.
Financial Management Plan	Attached to this IDP

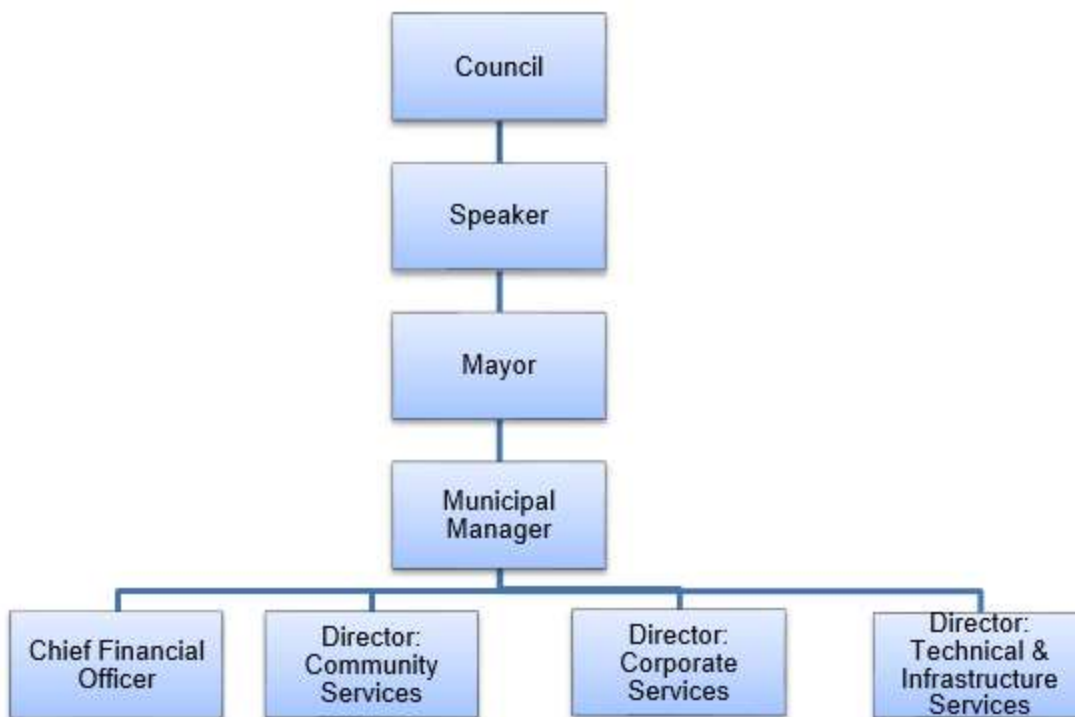

4.5.1 Institutional Plan

Table 129: *Core elements of the Institutional Plan*

Organizational Staff Establishment	The Organizational Structure has been reviewed and is attached to this IDP.
Human Resource Management Strategy	The HR Strategy is available and attached to the IDP
Employment Equity Plan	Available and will be finished before the finalization of the IDP and attached as an Appendix.
Skills Development Plan	Reviewed and attached to this IDP.
Anti-Corruption Strategy / Policy	Approved, reviewed and available
Communication and Participation Policy	To be approved during the 2016/17 financial year
Individual and Organizational Performance Management System	A PMS Framework and Policy has been approved by Council. The required individual and organizational documentation is available from the PMS Officer at request.
Monitoring and Evaluation System	A computerized monitoring and evaluation system was implemented. Although it is still a manual system, it is fully functional. During the external audit of 2013/2014 and 2014/2015 a clean audit was received on the IDP and PMS sections.

4.5.1.1 High-Level Organizational Structure

Organogram 1: *Organizational Structure: Governance / Management Interaction* (Nketoana Organisational Structure, 2013/14)

4.5.1.2 Skills Development Profile

Table 130: *Training provided during 2016/17 financial year* (Nketoana Skills Development Plan, 2013/14)

Employment category	Total
SOC 100 Legislators	100%
SOC 100 Directors and Corporate Managers	100%
SOC 200 Professionals	71%
SOC 300 Technicians and Trade Workers	93%
SOC 400 Community and Personal Service Workers	100%
SOC 500 Clerical and Administrative Workers	98%
SOC 700 Machine Operators and Drivers	100%
SOC 800 Laborers	100%
Total Employees	100%

4.5.1.3 Principles of the Anti-Fraud and Corruption Policy

The Nketoana Local Municipality based its anti-corruption strategy on the following eight (8) objectives:

- To pro-actively manage the anti-fraud responsibilities of the municipality;
- To provide employee guidance if fraud is suspected;
- To issue a clear statement forbidding misconduct, and to popularise this statement amongst all employees;
- To concentrate the responsibility for investigating possible instances of fraud and corruption in a central, non-bias office;
- To issue assurances to all personnel that fraud will be fully investigated;
- To issues clear protection guidelines for those reporting suspected fraud;
- To adopt and apply the norms, standards and principles of the National Anti-Corruption Forum; and
- To create a suitable environment for fraud management.

The Nketoana Local Municipality has identified the following strategies to achieve the objectives mentioned above:

- (1) *Strategy 1:* To implement a risk-based approach towards the management and combating of fraud, corruption and irregularities.
- (2) *Strategy 2:* To formulate clear guidelines that could be used by employees and the public about reporting procedures and methods in instances where fraud and/or corruption are expected.
- (3) *Strategy 3:* To increase institutional response capacity in terms of the ability of Municipality to respond to, and prevent instances of fraud and corruption.
- (4) *Strategy 4:* To make sure that appropriate measures are in place to promote the reporting of instances of fraud or corruption.
- (5) *Strategy 5:* To create and participate in networks of interested parties with a common aim of combating fraud and corruption.
- (6) *Strategy 6:* To institute measures aimed at creating a culture of fraud and corruption control.

4.5.1.4 Organizational and Individual Performance Management System

A fully functional Performance Management System (PMS) has been introduced in the Nketoana Local Municipal, consisting of the following elements (or sub-systems):

- (1) IDP goals and objectives represent the long-term (5 year) performance indicators and targets for the municipality over the term of the elected Council.
- (2) The IDP indicators and targets are annually aligned to the municipal budget on an activity level (programmes and projects) as part of the IDP review process.
- (3) Funded IDP goals, objectives, strategies, programmes and projects are annually cascaded down into the municipal Service Delivery and Budget Implementation Plan (SDBIP), where it is translated into annual municipal key performance indicators and targets.

- (4) IDP activities are also cascaded down to Departmental SDBIPs (one for each of the different Departments of the Municipality); a process whereby the responsibility for the implementation of the IDP is aligned with the --
- (5) annual individual Performance Plans (which is part of the Performance Agreements of the respective section 57 managers), because the departmental SDBIPs are used as a reference source for the formulation of the key performance indicators and targets against which the different section 57 managers will be evaluated and performance assessed.

4.5.1.5 Monitoring and Evaluation System

Table 131: *Elements of the Nketoana LM M&E System*

<i>Design of a Municipal Scorecard</i>	<ul style="list-style-type: none"> • The Municipal institutional scorecards relates directly to the Municipal Service Delivery and Budget Implementation Plan
<i>Daily, monthly and quarterly performance monitoring</i>	<ul style="list-style-type: none"> • Daily capturing of performance details based on activities performance and schedules executed / implemented. • Monthly performance reports from individual supervisors to senior managers (HODs)
<i>Performance Evaluation</i>	<ul style="list-style-type: none"> • Mid-year performance evaluation, based on Municipal SDBIP targets in comparison with actual results achieved • Annual performance evaluation, based on Municipal SDBIP targets in comparison with actual results achieved
<i>Annual Auditing of the PMS</i>	<ul style="list-style-type: none"> • Annual auditing of the Organizational PMS in terms of Chapter 3 of the Municipal Planning and Performance Management Regulations by the Internal Auditors
<i>Reporting and Accountability</i>	<ul style="list-style-type: none"> • Compilation of the Mid-Year Budget and Performance Report in terms of section 72 of the Municipal Finance Management Act • Compilation of the Annual Performance Report in terms of section 46(1) of the Municipal Systems Act • Compilation of the Annual Report in terms of section 46 of the Municipal Systems Act and the Municipal Finance Management Act, sections 121-127 (including the Annual Financial Statements) • Consideration of the Performance Reports by Management, Council and the Audit Committee • Submission of performance reports to the Provincial and National Treasury and COGTA • Advertisement of performance reports for scrutiny and comments by the public

4.5.1.6 Communication and Public Participation Strategy

The community participation strategy of the Nketoana Local Municipality focuses on compliance with the requirements of the Municipal Systems Act, 2000 and the Municipal Planning and Performance Management Regulations, 2001 in the manner in which the municipality organizes its engagement structures and processes. In this regard, overall aim of the Municipality's participation strategy is to develop a culture of municipal governance that complements formal representative government with a system of participatory governance. In this regard, the objectives of the Municipality's participation processes are as follows (related to the requirements of s. 16 of the Systems Act, 2000):

- Encourage, and create conditions for, the local community to participate in the affairs of the municipality, including the preparation, implementation and review of its integrated development plan; the establishment, implementation and review of its performance management system; the monitoring and review of its performance, including the outcomes and impact of such performance; the preparation of its budget; and strategic decisions relating to the provision of municipal services.
- Contribute to building the capacity of the local community to enable it to participate in the affairs of the municipality; councilors and staff to foster community participation; and use its resources, and annually allocate funds in its budget, as may be appropriate for the purpose of implementing the IDP, PMS and community engagement initiatives.

The purpose of communication in local government is to fulfill the mandate and duty to consult with and inform the public about services impacting on their daily lives. Councilors, managers and the public should understand the chain of events in a municipality's communication system and they should be sensitive to all conditions that impact on the environment in which they are operating.

The function of communication in municipalities is directly linked to the function of meeting the information needs of society. Therefore, all councilors and employees should perform their functions with the knowledge that the purpose of all messages is to satisfy the community's most urgent expectations.

Communication in local government is a process aiming at the sharing of information between a municipality and all its stakeholders. It requires the establishment of an interactive process that should be aligned with the Integrated Development Plan of a municipality. To ensure that the flow of communication is effective and efficient, it is essential that a communication strategy is developed. The purpose of a municipal communication strategy is to convey correct, clear and simple messages on a regular basis to all internal and external stakeholders in a transparent manner. This will, on the one hand, ensure that councilors and career officials:

- Are familiar with the expectations of the stakeholders;
- Convey clear messages to all relevant stakeholders;
- Identify and apply appropriate communication methods; and
- Frequently communicate with all the stakeholders.

On the other hand it would ensure that community members are informed about the processes available to them to participate in local government affairs and to play a watchdog role in the level and quality services that they are getting from their municipality.

In addition to the theoretical foundation for communication in a municipal setup, there is also a comprehensive policy framework comprising of national government legislation and other policy documents. It is essential that any municipality's communication strategy is aligned with the directives stipulated in the legislation and the relevant policy documents.

4.6 Alignment of the IDP with National, Provincial and District Priorities

Table 132: *Alignment of the IDP with National, Provincial and District Priorities*

National, Provincial or District Priorities	Why Important?	Implications for the Nketoana IDP
Accelerated and Shared Growth Initiative for South Africa (AsgiSA)¹⁰	<p>The aims of AsgiSA are to –</p> <ul style="list-style-type: none"> • Obtain balanced growth in the country's economy and its employment profile; • Invest in infrastructure as a way to stimulate economic growth and job creation, and lay the foundation for fast-tracking expansion of the national economy; • Target specific sector strategies and initiatives to further stimulate economic growth and job creation; • Invest in education and skills development; • Eliminating the second economy, by expanding women's access to economic opportunities, promote SMMEs and BBBEes, improve the small business regulatory environment and promote youth development; and • Stimulate the macro-environment to promote expanded economic growth. 	<p>The Nketoana LM's LED Strategy and the objectives, strategies and programmes contained in this IDP related to economic development, of creation and SMME / BBBEE support is aligned with, and derived from AsgiSA and the New Growth Path</p>
New Growth Path (Department of Economic Affairs)	<p>Central to the New Growth Path is a massive investment in infrastructure as a critical driver of jobs across the economy.</p> <ul style="list-style-type: none"> • The framework identifies investments in five key areas namely: energy, transport, communication, water and housing. Sustaining high levels of public investment in these areas will create jobs in construction, operation and maintenance of infrastructure. • The new growth path sees the infrastructure programme as a trigger to build a local supplier industry for the manufacture of the components for the build-programme. • Specific measures, particularly changes to procurement policy and regulations, are identified to ensure that this is achieved. Risks include the still fragile global recovery; competition and collaboration with the new fast-growing economies; and competing interests domestically. <p>The New Growth Path identifies five other priority areas as part of the programme to create jobs, through a series of partnerships between the State and the private sector.</p> <ul style="list-style-type: none"> • Green economy: expansions in construction and the production of technologies for solar, wind and biofuels is supported by the draft Energy on Integrated Resource Plan. Clean manufacturing and environmental services are projected to create 300 000 jobs over the next decade. • Agriculture: jobs will be created by addressing the high input costs and upscaling processing and export marketing. Support 	<p>It is in the nature of the mandate of municipalities to contribute towards the aims of the New Growth Path, because it focus on energy, transport, water, sanitation and housing. The Nketoana municipality is also conscience of the importance of the green economy. The nature of the economy in the area is based on Agricultural, and in this regard the municipality plays an active and important role in expanding job creation through coordination and promotion of agricultural activity. The municipality is currently engaged in a process of compiling a</p>

¹⁰ Information obtained from www.gov.za

National, Provincial or District Priorities	Why Important?	Implications for the Nketoana IDP
	<p>for small holders will include access to key inputs. Government will explore ways to improve working and living conditions for the country's 660 000 farm workers. The growth path also commits the Government to unblocking stalled land transfers, which constrain new investment.</p> <ul style="list-style-type: none"> • Mining: calls for increased mineral extraction and improving infrastructure and skills development. It focuses support for beneficiation on the final manufacture of consumer and capital goods, which can create large-scale employment. It foresees the establishment of a state mining company concentrating on beneficiation and enhanced resource exploitation in competition with a strong private mining sector. • Manufacturing: calls for re-industrialization in the South African economy based on improving performance through innovation, skills development and reduced input costs in the economy. The document targets a doubling of South Africa's research and development investment to 2% of gross domestic product by 2018. • Tourism and other high-level services: hold employment potential and the framework calls for South Africa to position itself as the higher education hub of the African continent. 	<p>Tourism strategy, which will also contribute towards achieving the aims of the New Growth Path.</p>
Municipal Turnaround Strategy	<p>The key question government undertook to reflect on with a range of role players over the past few months was <i>'what is the state of local government in 2009, and what must be done to restore the confidence of our people in this sphere of government by 2011 and beyond?'</i></p> <p>To begin to answer this question, nine province-wide assessments of each of the 283 municipalities were carried out in 2009 by the Department of Cooperative Governance and Traditional Affairs (CoGTA), led by then Minister, Mr Sicelo Shiceka together with the respective MECs responsible for Local Government. The purpose of the provincial assessments was to determine the key problem statement in different thematic areas and to establish the root causes for poor performance, distress or dysfunctionality in municipalities. From these assessments, the consolidated State of Local Government Report was compiled and widely consulted over with stakeholders.</p>	<p>The Municipal Turnaround Strategy of the Nketoana Local Municipality has been finalized and currently being implemented. It has impacted on several objectives and projects contained in this IDP</p>
National Outcome 9	<p>Outcome 9 deals with responsive and accountable local government, and focus on achieving the following outputs:</p> <ul style="list-style-type: none"> • Implementing a differentiated approach to municipal financing, planning and support • Improving access to basic services • Implementing the Community Works Programme • Actions supportive of the human settlement outcome • Deepen democracy through a refined Ward Committee Model • Administrative and financial capability • A single window of coordination 	<p>The Nketoana Municipality has structured its IDP, PMS, M&E and reporting systems and processes according to the requirements of Outcome 9</p>
State of the National Address	<p>The municipality has also aligned its IDP with the commitments of the Hon. President Mr. Jacob G. Zuma in the 2016 State of the Nation Speech on 11 February 2016. In this regard, mention could be made of the following:</p> <p>1.</p>	
	<ul style="list-style-type: none"> • <i>A resilient and fast growing economy is at the heart of the country's radical economic transformation agenda and the National Development Plan</i> 	

National, Provincial or District Priorities	Why Important?	Implications for the Nketoana IDP						
	<ul style="list-style-type: none"><i>The need to empower small, medium and micro enterprises to accelerate their growth</i>							
	The objectives and strategies from this IDP supporting the commitment in the SONA:							
	6. To create employment opportunities in the Nketoana municipal area							
	7. To create an environment conducive for investment and increased economic activity in the Nketoana municipal area							
	8. The Municipality's economic development strategy is currently informed by the Integrated Economic Development Framework. However, the LED Strategy is currently in the final phases of finalization.							
	9. The SDF proposes long-term, expensive initiatives, such as the development of a CBD in Mamafubedu and the expansion of the industrial area between the railway line and Elandskop.							
	10. However, in terms of affordability, the Municipality's economic development strategies for the 2012-2017 IDP cycle focuses on three key elements, namely:							
	<ul style="list-style-type: none">Job creationIdentify and develop economic development landmarksDevelop Reitz as an economic development hub for manufacturing (industrial zones)To create a business environment conducive for investment, with specific reference to ensuring that basic services are available to support such expansionPromotion of targeted economic sectors, such as BBBEes, SMMEs and local purchasing.							
	Strategy related to Cooperatives							
	Cooperatives must be community driven							
2.								
<i>The Nine-Point Plan:</i>								
Nketoana has considered its institutional capacity, and has identified the following elements of the Nine Point Plan to which it could contribute:								
<table><tr><th>Element of the Nine-Point Plan from SoNA</th><th>Nketoana Municipality's Response</th></tr><tr><td>Unlocking the potential of SMMEs, cooperatives, township and rural enterprises</td><td><p>To create an environment conducive for investment and increased economic activity in the Nketoana municipal area</p><ul style="list-style-type: none">Develop Reitz as an economic development hub for manufacturing (industrial zones)To create a business environment conducive for investment, with specific reference to ensuring that basic services are available to support such expansionPromotion of targeted economic sectors, such as BBBEes, SMMEs and local purchasing</td></tr><tr><td>Water and sanitation</td><td><p>To ensure that 100% of households in formal and informal settlements in the Nketoana municipal area have access to basic level of water by 2015</p><p>The Municipality's water-related strategies are informed by the Water Services Development Plan.</p><p>The target of 100% access to basic level of water requires the following interventions:</p></td></tr></table>			Element of the Nine-Point Plan from SoNA	Nketoana Municipality's Response	Unlocking the potential of SMMEs, cooperatives, township and rural enterprises	<p>To create an environment conducive for investment and increased economic activity in the Nketoana municipal area</p> <ul style="list-style-type: none">Develop Reitz as an economic development hub for manufacturing (industrial zones)To create a business environment conducive for investment, with specific reference to ensuring that basic services are available to support such expansionPromotion of targeted economic sectors, such as BBBEes, SMMEs and local purchasing	Water and sanitation	<p>To ensure that 100% of households in formal and informal settlements in the Nketoana municipal area have access to basic level of water by 2015</p> <p>The Municipality's water-related strategies are informed by the Water Services Development Plan.</p> <p>The target of 100% access to basic level of water requires the following interventions:</p>
Element of the Nine-Point Plan from SoNA	Nketoana Municipality's Response							
Unlocking the potential of SMMEs, cooperatives, township and rural enterprises	<p>To create an environment conducive for investment and increased economic activity in the Nketoana municipal area</p> <ul style="list-style-type: none">Develop Reitz as an economic development hub for manufacturing (industrial zones)To create a business environment conducive for investment, with specific reference to ensuring that basic services are available to support such expansionPromotion of targeted economic sectors, such as BBBEes, SMMEs and local purchasing							
Water and sanitation	<p>To ensure that 100% of households in formal and informal settlements in the Nketoana municipal area have access to basic level of water by 2015</p> <p>The Municipality's water-related strategies are informed by the Water Services Development Plan.</p> <p>The target of 100% access to basic level of water requires the following interventions:</p>							

National, Provincial or District Priorities	Why Important?	Implications for the Nketoana IDP
		<ul style="list-style-type: none"> • Maintenance of existing levels of accessibility to clean, potable water in those areas where the service is currently available; • Expanding access to new residential and business sites in formal areas, and • Maintenance, operation and expansion of water-related infrastructure that enable the municipality to ensure access to the defined level of service. <p>In light of the above-mentioned, the Municipality's strategy focus on three elements, namely:</p> <ul style="list-style-type: none"> • Continuous maintenance and operation of water infrastructure to ensure that current levels of accessibility to water could be maintained; • Expand infrastructure to expansions in service points; and • Ensure that processes and systems are in place to provide acceptable quality drinking water. <p>To ensure that 100% of households in formal settlements in the Nketoana municipal area have access to basic level of sanitation by 2017</p> <ul style="list-style-type: none"> • The municipality needs to provide 100% of the Nketoana community with access to at least RDP level of sanitation. Given the capacity limitations of the municipality, this will not be possible for rural areas and farming communities, but for formal settlements it will. The municipality's strategy in this regard focuses on ensuring that all households in formal settlements have access to at least RDP level of sanitation. This strategy include maintaining, upgrading and extended the infrastructure required to maintain such levels of access. <p>An important element of the municipality's strategic approach towards sanitation is to improve its waste water management standards (green drop status). The conversion of VIP toilets to water borne systems is an important element of the municipality's strategic framework for sanitation services.</p>
	Transport infrastructure	<p>To ensure that internal roads in the Nketoana municipal area are maintained and/or upgraded to facilitate economic and social activity required for the sustainable development of the municipality; considering the capacity limitations facing the Municipality</p> <p>The strategies of the municipality related to roads and storm water derived from the Roads and Storm water Masterplan (2011).</p> <p>There are four key elements at the core of this strategy, namely:¹¹</p> <ul style="list-style-type: none"> • Upgrading of existing gravel roads to paved or tarred roads (129,9 km) • Upgrading of existing dirt roads to paved or tarred roads (3,9 km) • Rehabilitation of existing tar roads (rebuilding, pothole repairs, crack sealing, seal treatment and road markings); and • Provision of storm water drains (141,9 km) <p>It is envisaged to do paving in each financial year and then gradually improve the roads.</p>

¹¹ (Nektoana Local Municipality, Roads and Stormwater Masterplan, 2011)

National, Provincial or District Priorities	Why Important?		Implications for the Nketoana IDP
		<p>Storm water - The maintenance of storm water channels and catching points are prioritized. Damage can be prevented if the water can be allowed to flow free without damming and congestion.</p> <p>The municipality need to improve its capacity to achieve its objectives for the maintenance and upgrading of roads by sourcing adequate funding for the roads, and then specifically the development of roads).</p>	
State of the Province address	<ul style="list-style-type: none"> Revised Free State Growth and Development Strategy. Regional Bulk Water Schemes in the Setsoto, Dihlabeng and Phumelela local municipalities, the Sterkfontein Dam Scheme and the Nketoana Regional Water Scheme Augmentation in the Thabo Mofutsanyana district. In partnership with Agribusiness VKB and the IDC, we have established a chicken broiler project and built a state-of-the-art chicken abattoir in Reitz in the eastern Free State. Production commenced early in 2013. SMME Development, Cooperatives and Social Enterprises Significant progress has been made with work on the Bloemfontein–Bultfontein, Lindley–Steynsrus, Bethlehem–Lindley and Heilbron–Frankfort roads and work is on schedule to be completed during the next financial year. 		The Nketoana LM supports the relevant Provincial sector departments to achieve the objectives included in the Premier's State of the Province Address.
